1992-93

ACKNOWLEDGEMENTS:

The CAPER database is made possible by the cooperative financial and management support of the federal, provincial and territorial ministries of health and five national medical organizations the Canadian Association of Internes and Residents, the Association of Canadian Medical Colleges, the College of Family Physicians of Canada, the Canadian Medical Association and the Royal College of Physicians and Surgeons of Canada. Both representatives and staff of these organizations play a significant role in the ongoing work of CAPER. This is the first year in which all twelve provincial and territorial ministries of health (Department of Health, Newfoundland; Department of Health and Social Services, Prince Edward Island; Department of Health and Fitness, Nova Scotia; Department of Health and Community Services, New Brunswick; Ministère de la Santé et des Services sociaux, Quebec; Ministry of Health, Ontario; Manitoba Health, Manitoba; Department of Health, Saskatchewan; Alberta Health, Alberta; Ministry of Health, British Columbia; Department of Health and Social Services, Yukon Territory; Department of Health, Northwest Territories) have joined with Health and Welfare Canada to provide half of the operating costs of CAPER.

The base of information from which CAPER data are prepared were provided again this year in a timely way by the associate deans and administrative officers in the sixteen Canadian faculties of medicine. Their work on behalf of CAPER and the assistance of members of the ACMC Secretariat is gratefully acknowledged.

The CAPER staff, Ms. Karen Edmonds and Mr. Leslie Forward, have worked skilfully and diligently to ensure both publication of this document and the necessary liaison with all of CAPER's participating organizations.

A personal thank you is extended to all those people who have been part of the work of CAPER this year.

A. Dianne Thurber, M.A.
Director, CAPER

COPYRIGHT NOTE:

REMERCIEMENTS:

La banque de données de CAPER a pu être mise en place grâce à la coopération financière et au soutien administratif des ministères de la santé fédéral, provinciaux et territoriaux et de cinq organismes médicaux d'envergure nationale: l'Association canadienne des internes et des résidents, l'Association des facultés de médecine du Canada, le Collège des médecins de famille du Canada, l'Association médicale canadienne, le Collège royal des médecins et chirurgiens du Canada. Les représentants aussi bien que le personnel de ces organismes ont joué un rôle déterminant dans les activités de CAPER. Pour la première fois cette année, les 12 ministères provinciaux et territoriaux de la santé (Department of Health, Terre-Neuve; Department of Health and Social Services, Île-du-Prince-Édouard; Department of Health and Fitness, Nouvelle-Écosse; ministère de la Santé et des Services communautaires; Nouveau-Brunswick; ministère de la Santé et des Services sociaux, Québec; ministère de la Santé, Ontario; Santé Manitoba, Manitoba; Department of Health, Saskatchewan; Alberta Health, Alberta; Ministry of Health, Colombie-Britannique; Department of Health and Social Services, Territoire du Yukon; Department of Health, Territoires du Nord-Ouest) ont financé, avec Santé et Bien-être social Canada, la moitié des frais de fonctionnement de CAPER.

Les vice-doyens et les responsables de l'administration des 16 facultés de médecine ont soumis ponctuellement cette année encore les renseignements de base nécessaires à la banque de données. Nous voulons exprimer toute notre gratitude pour leur travail au nom de CAPER et pour l'aide apportée par le personnel de l'AFMC.

Le personnel de CAPER, Mlle Karen Edmonds et M. Leslie Forward, ont travaillé avec talent et diligence pour assurer la publication de ce document et pour établir une bonne communication avec tous les organismes participant aux activités de CAPER.

Nos remerciements personnels à tous ceux qui ont contribué au travail de CAPER cette année.

A. Dianne Thurber, M.A.
Directrice, CAPER

BACKGROUND

CAPER (the Canadian Post-M.D. Education Registry) was established in 1986 through the cooperation of national medical organizations with an interest in the Post-M.D. clinical education of physicians in Canada. The Association of Canadian Medical Colleges, the Canadian Association of Internes and Residents, the Canadian Medical Association, the College of Family Physicians of Canada, Health and Welfare Canada, and the Royal College of Physicians and Surgeons of Canada, have provided both expertise and financial support for the development and operation of CAPER since 1986. Provincial and territorial ministries of health have contributed to CAPER beginning in 1992. Participation of the provincial ministries has been coordinated by the Federal/Provincial/Territorial Advisory Committee on Health Human Resources.

CAPER is incorporated within the by-laws of the Association of Canadian Medical Colleges with the mandate to provide accurate information which may be used for medical manpower planning on a national basis. To accomplish this task, an individual longitudinal file is maintained containing socio-demographic information, details of the current training program and career goal plans of each intern, resident or fellow under the supervision of the Canadian Faculties of Medicine on November 1 of each year. The data in this document are derived from information submitted for November 1, 1992.

HISTORIQUE

CAPER (système informatisé sur les stagiaires post-M.D. en formation clinique) a été établi en 1986 avec la coopération de diverses organisations médicales du Canada intéressées par la formation clinique post-M.D. au Canada. L'Association des facultés de médecine du Canada, l'Association canadienne des internes et des résidents, l'Association médicale canadienne, le Collège des médecins de famille du Canada, Santé et bien-être social Canada, ainsi que le Collège royal des médecins et chirurgiens du Canada ont contribué depuis 1986 au développement et au bon fonctionnement de CAPER en partageant leurs connaissances et en lui apportant un soutien financier. Les ministères provinciaux et territoriaux de la santé ont participé aux activités de CAPER depuis 1992 par l'entremise du Comité consultatif des ressources humaines en santé.

CAPER est constitué en société dans le cadre des statuts de l'Association des facultés de médecine du Canada avec le mandat de fournir des renseignements précis pouvant être utilisés pour fins de planification de la main-d'oeuvre médicale au niveau national. Pour ce faire, un fichier longitudinal est tenu à jour contenant l'information pertinente à chaque interne, résident ou "fellow" inscrit aux différentes facultés de médecine canadiennes en date du 1er novembre de chaque année. L'information socio-démographique, les détails du programme de formation ainsi que l'orientation professionnelle y sont inclus. Les données de ce document reflètent l'information soumise au 1er novembre 1992.

THE REPORTING PROCESS

The individual records of all trainees under the supervision of each Canadian Faculty of Medicine are provided to CAPER by the postgraduate medical education office of the respective Faculty. All Post-M.D. trainees (interns, residents, and fellows) in training positions on Nov. 1 of the current academic year are reported to CAPER. The following information is included in the yearly report:

- The Faculty of Medicine supervising post-M.D. training;
- Socio-demographic details;
- Previous medical education and certification;
- Field of current post-M.D. training; and
- Professional goal and date of completion of training.

This information is collected by all Faculties at the time of registration for Post-M.D. training each year and is sent to CAPER, in coded form, on diskette or magnetic tape. Information sent to CAPER is checked for missing or incorrect items. Reports are then sent back to the appropriate postgraduate medical education office of the Canadian Faculties of Medicine for further verification of the information on their trainees.

Confidentiality of individual records

The individual information provided by the Faculties of Medicine for the CAPER database is kept in confidence. The CAPER policy concerning the confidentiality of individual records guarantees that individual information is not released from CAPER:

"Although information will be collected and maintained in the form of individual records, UNDER NO CIRCUMSTANCES will individual records be released or disclosed. A Faculty of Medicine, however, will be able to retrieve the individual records which have been submitted to CAPER by that faculty. This policy applies to all individuals and organizations including the participating organizations of CAPER."

PROCÉDURE DE CUEILLETTE

Les bureaux de formation post-M.D. de chaque faculté de médecine fournissent à CAPER les rapports contenant les données sur les stagiaires de leur propre faculté. Le rapport fait à CAPER inclut l'information sur tous les stagiaires post-M.D. (internes, résidents, associés ou moniteurs/boursiers) qui sont inscrits en date du 1er novembre de chaque année. Les renseignements suivants sont inclus dans le rapport annuel:

- la faculté de médecine offrant la formation post-M.D.;
- détails sociodémographiques;
- formation médicale antérieure et certification;
- domaine de formation en cours; et
- orientation professionnelle et date prévue de la fin de la formation clinique.

A chaque année, les facultés de médecine recueillent les renseignements lors de l'inscription pour la formation post-M.D. et font parvenir le tout à CAPER sous forme de codes, soit sur ruban ou sur disquette. Le personnel de CAPER vérifie cette information afin de déceler les omissions et les inexactitudes. Les rapports sont ensuite retournés aux bureaux post-M.D. de chaque faculté de médecine canadienne afin que les renseignements soient vérifiés de nouveau.

Confidentialité de l'information personnelle

L'information personnelle fournie par les facultés de médecine et insérée dans la base de données de CAPER est strictement confidentielle. La politique de CAPER concernant la confidentialité de l'information personnelle assure que les renseignements individuels ne soient pas divulgués:

"Bien que l'information soit recueillie et gardée sous forme de fiches individuelles, ces renseignements ne seront divulgués ou révélés EN AUCUN CAS. Par ailleurs, une faculté de médecine pourra récupérer les fiches individuelles qu'elle aura soumises à CAPER. Cette politique s'applique à tous les individus et à toutes les organisations incluant les organismes participants dans CAPER."

USING THE CAPER DATABASE

The Caper database has been designed to serve as an information resource for medical manpower planning on a national basis in Canada. Information is held in an individual longitudinal format to permit the study of the flow of trainees through the post-M.D. training system. Although individual information is not released from CAPER, with the approval of the CAPER Executive Committee, group data tabulations and statistics will be prepared in response to requests. Preparation will be on a cost-recovery basis. Examples of some of the categories into which tabulations can be grouped are: provinces, training fields, or cohorts of M.D. graduates. The CAPER database has been designed to study the mobility of trainees between faculties of medicine, provinces and training fields. Data requests made to CAPER are welcome.

CAPER
151 Slater Street, Suite 1006
Ottawa, Ontario
K1P 5N1
(Tel: 613-237-0078)

UTILISATION DE LA BASE DE DONNÉES DE CAPER

La base de données de CAPER fut conçue comme source d'information pour la planification de la main d'œuvre médicale au niveau national. L'information est cueillie sous forme de fiches longitudinales individuelles afin de pouvoir obtenir un vue d'ensemble des stagiaires inscrits à la formation post-M.D. Bien que l'information sous forme individuelle ne puisse pas être divulguée, il est possible de répondre aux demandes de statistiques sous forme de groupe avec l'approbation du Comité exécutif de CAPER. Ce service est offert à prix coûtant. Les données peuvent être groupées selon les catégories suivantes: provinces, domaines de formation ou cohortes de stagiaires post-M.D.. La base de données fut conçue pour permettre l'étude de la mobilité des stagiaires entre facultés de médecine, provinces et domaines de formation. Toutes demandes de statistiques devront être faites en s'adressant à CAPER:

CAPER
151, rue Slater, pièce 1006
Ottawa (Ontario)
K1P 5N1
(Tel: 613 237-0078)

DEFINITIONS

The data provided to CAPER by the sixteen Faculties of Medicine contain the information on each trainee in accordance with definitions established by CAPER. Following are these definitions and other important details pertaining to the specific variables used in the tables presented in this document.

FACULTY OF MEDICINE PROVIDING POST-M.D. TRAINING

The Faculty of Medicine supervising the Post-M.D. trainee on November 1 of the report year.

FIELD OF Post-M.D. TRAINING

The type of non-specialized training, Family Medicine training, or the speciality field in which a trainee is enrolled on November 1 of the report year.

RANK

The variable describing the rank of trainees is the actual training level of a trainee in the intern or residency ranking system at the individual faculties of medicine. Trainees pass through the ranking system in two ways depending on whether the first year of post-M.D. training is a specialized or a non-specialized year of training.

1. Post-M.D. year 1 (specialized year or Family Medicine)

R-2

R-3

R-4

R-5

2. Post-M.D. year 1 (non-specialized training)

R-1 (first year of a speciality)

R-2

R-3

R-4

R-5

If this route is chosen, a trainee would take 6 years to complete a 5 year speciality training program.

The following details concerning the ranking system in specific provinces are to be noted:

DÉFINITIONS

Les données, fournies par les seize facultés de médecine à CAPER, contiennent les renseignements concernant chaque stagiaire suivant les définitions établies par CAPER. Ces définitions, ainsi que d'autres détails importants relatifs aux variables spécifiques utilisées dans les tableaux présentés dans ce document, sont énoncés ci-après.

FACULTÉ DE MÉDECINE OFFRANT DES STAGES POST-M.D.

La faculté de médecine supervisant le stagiaire d'un programme post-M.D. au 1er novembre de l'année du rapport.

DOMAINE DES STAGES POST-M.D.

Le genre de stage non spécialisé, de médecine de famille, ou la spécialité auquel le stagiaire s'est inscrit au 1er novembre de l'année du rapport.

GRADE

La variable décrivant le grade des stagiaires est représenté par le niveau de stage réel du stagiaire selon le système de classement d'internat ou de résidence de chaque faculté de médecine. Les stagiaires sont classifiés suivant le genre de stage de leur première année post-M.D., soit un stage spécialisé ou soit une stage nonspecialisé.

1. Première année post-M.D. (stage spécialisé ou de médecine de famille)

R-2

R-3

R-4

R-5

2. Première année post-M.D. (stage non spécialisé)

R-1

R-2

R-3

R-4

R-5

En choisissant cette filière, le stagiaire mettra 6 ans pour accomplir un programme de stage de 5 années.

Notez ci-après des détails concernant le système de classement spécifiques à certaines provinces:

QUEBEC

In Quebec, the normal pathway for a trainee would be from the post-M.D. year 1 level of a program into the R-2 level. Trainees who change program after year 1, repeat year 1, or are returning from practice to the first year of a speciality are included in the R-1 (not year 1) category.

QUÉBEC

Au Québec, la filière normale fait passer le stagiaire de la première année post-M.D. d'un programme au niveau R-2. Les stagiaires qui changent de programme, redoublent la première année ou reprennent leurs études au niveau de la première année de spécialisation sont inclus dans le niveau R-1 (et non dans celui de la première année).

BRITISH COLUMBIA

This year, the rank levels reported from B.C. have been adjusted to ensure that they are consistent with the rest of the country. All trainees in the first year of specialty training are included in the R-1 category. Those in the second year are included at the R-2 level, etc. Family Medicine trainees in the second year of training are included in the R-2 category. Individuals making comparisons with earlier data are advised to consult the 'Definitions' section of the census reports being used.

COLOMBIE BRITANIQUE

Cette année, le rang des stagiaires de la Colombie Britanique a été normalisé pour être compatible avec le reste du pays. Tous les stagiaires en première de spécialité sont inscrits dans la catégorie R-1. Ceux en deuxième année sont inscrits dans la catégorie R-2, etc. Les stagiaires en deuxième année de médecine de famille sont inscrits dans la catégorie R-2. Nous conseillons à ceux qui font des comparaisons utilisant les données des années précédentes de consulter la rubrique 'Definitions' des recensements qu'ils utilisent.

Fellows: CAPER uses the following definition of the term "Fellow": A post-M.D. trainee who is registered with the Postgraduate Medical Education Office of a university faculty of medicine and who, regardless of the source of funding, is pursuing clinical or research training which will NOT be evaluated by the supervising faculty for the purpose of Canadian licensure, or certification by the College of Family Physicians of Canada, la Corporation professionnelle des médecins du Québec, or the Royal College of Physicians and Surgeons of Canada.

"Fellows": CAPER utilise la définition du terme "Fellow" énoncée ci-après: un stagiaire post-M.D. qui est inscrit auprès du Bureau de l'éducation médicale post-M.D. de la faculté de médecine d'une université et qui, quelque soit la source du financement, poursuit un stage clinique ou de recherche n'étant PAS évalué par la faculté supervisante en vue de l'obtention du permis d'exercer la médecine au Canada ou de la certification par le Collège des médecins de famille du Canada, par la Corporation professionnelle des médecins du Québec ou par le Collège Royal des médecins et chirurgiens du Canada.

LOCATION OF THE FACULTY OF MEDICINE THAT AWARDED THE M.D. DEGREE

For individuals who earned the degree in Canada, the province or location of faculty of medicine that awarded the M.D. degree is used. Post-M.D. trainees who earned the M.D. degree outside Canada are classified as such.

LIEU DE LA FACULTÉ DE MÉDECINE ACCORDANT LE DIPLOÔME DE MÉDECINE

Pour les individus qui ont reçu leur diplôme au Canada, la province de la faculté de médecine qui a accordé le diplôme M.D. est utilisé. Ceux qui ont reçu leur diplôme ailleurs qu'au Canada sont classifiés en tant que diplômés de facultés de médecine étrangères.

SOURCE OF FUNDING

The source of funding is the organization or government agency providing the funding for the position occupied by the trainee. Two categories are used: "Regular Ministry Funds" and "Other Funds". "Regular Ministry Funds" refers to funds provided by the appropriate provincial government ministry responsible for the training of interns and residents within that province. All other funding sources are grouped as "Other Funds".

AGE

Age is calculated as the age of the trainee on July 1, 1992. (The age of the trainee at the beginning of the July 1992 training session.)

CAREER GOAL

This is the professional goal as indicated by the trainee at the time of registration for post-M.D. training in July 1992. In most cases it is the same as field of training. However, it may differ. For example, many trainees in rotating internships have a career in a specialty. Often trainees in internal medicine or surgery have a sub-specialty as a career goal.

LEGAL STATUS

Three categories are used:

Canadian Citizen:

trainee is a citizen of Canada.

Permanent Resident:

an individual who been accepted as a landed immigrant and has the right to live and work in Canada.

Visa:

trainees holding a visa permitting employment in Canada temporarily as a post-M.D. trainee.

SOURCE DE FINANCEMENT

La source de financement est l'organisme ou l'agence gouvernementale qui fournit le financement pour la position occupée par le stagiaire. Deux catégories sont utilisées: "Fonds ministériels habituels" et "Autres fonds". Les "fonds ministériels habituels" sont les fonds provenant des ministères des gouvernements provinciaux appropriés responsables des stages des internes et des résidents au sein de la province. Tous les autres sources de financement sont regroupés sous l'appellation "Autres fonds".

ÂGE

L'âge est calculé en fonction de l'âge du stagiaire au 1er juillet 1992. (L'âge du stagiaire au commencement de la séance de stage de juillet 1992).

BUT DE CARRIÈRE

C'est le but professionnel indiqué par le stagiaire au moment de l'inscription pour le stage post-M.D. en juillet 1992. Dans la plupart des cas, c'est le même que le domaine de stage post-M.D. Cependant il se peut qu'il y ait des différences. Par exemple: de nombreux stagiaires en internat rotatoire ont une spécialité de carrière. Souvent, les stagiaires en médecine interne ou en chirurgie ont une sous-spécialité comme but de carrière.

STATUT LÉGAL

On utilise trois catégories:

Citoyen canadian:

le stagiaire est citoyen canadian

Résident permanent:

un individu ayant reçu le droit d'établissement au Canada et qui, en tant que tel, a le droit de vivre and travailler au Canada

Visa:

le stagiaire est un possesseur d'un visa permettant d'être employé temporairement en tant que stagiaire post-M.D.

POST-M.D. YEAR 1 TRAINEE

All trainees enrolled in the first year of post-M.D. training. Included are trainees who are recent graduates of Canadian medical faculties and trainees from outside Canada who are pursuing post-M.D. year 1 training required for licensure, specialty, or family medicine training.

**TRAINEES WHO EXITED POST-M.D. TRAINING
BETWEEN NOVEMBER 1, 1991 AND NOVEMBER 1,
1992**

These tables contain trainees who were reported to CAPER on November 1, 1991 but were **not** reported on November 1, 1992. Both trainees who are exiting at the completion of training and those exiting temporarily are included in these data.

STAGIAIRE EN PREMIÈRE ANNÉE POST-M.D.

Tous les stagiaires inscrits en première année post-M.D. Sont compris dans cette catégorie les stagiaires récemment diplômés de facultés de médecine canadiennes et les stagiaires étrangés qui poursuivent le stage de première année post-M.D. requis pour l'obtention du permis d'exercer ou le stage de spécialisation ou de médecine de famille.

**STAGIAIRES INSCRITS EN STAGE POST-M.D. AU 1ER
NOVEMBRE 1991 ET NE L'ÉTANT PLUS AU 1ER
NOVEMBRE 1992**

Ces tableaux font état des stagiaires inscrits dans la base de données de CAPER au 1er novembre 1991 mais ne l'étant plus au 1er novembre 1992. Sont inclus dans ces données les stagiaires ayant terminé leur formation et ceux l'arrêtant temporairement.

**DATA FROM THE 1992-93 CAPER
CENSUS OF POST-M.D. TRAINEES**

The following tables are grouped under topics of significance to post-M.D. training in Canada. The tables that have been selected give an overview of the distribution of the post-M.D. trainee population in Canada, among the provinces, faculties of medicine, and fields of training. These tables represent only a sample of the many ways variables can be combined to provide useful and interesting data. See the section at the front of this report titled "USING THE CAPER DATABASE" if you wish to request specific tables.

- A. Faculty of Medicine providing post-M.D. training
- B. Field of Post-M.D. training
- C. M.D. Degree
- D. Source of Funding for post-M.D. training
- E. Gender
- F. Legal Status
- G. Post-M.D. year 1 trainees only
- H. Trainees who exited post-M.D. training between November 1, 1991 and November 1, 1992
- I. Tables covering the time period from 1988 to 1992

**DONNÉES PROVENANT DU
RECENSEMENT ANNUEL DES
STAGIAIRES POST-M.D. 1992-93**

Les tableaux sont groupés selon les domaines d'intérêt à la formation post-M.D. au Canada. Les tableaux choisis donnent une vue d'ensemble de la distribution des stagiaires post-M.D. à travers le Canada, parmi les provinces, les facultés de médecine et les domaines de formation. Ces tableaux ne représentent qu'un échantillon des multiples façons d'utiliser les variables afin de fournir une information qui soit à la fois utile et intéressante. Si vous désirez obtenir des tableaux spécifiques, reportez-vous à la section intitulée "UTILISATION DE LA BASE DE DONNÉES DE CAPER" située au début de cet ouvrage.

- A. Faculté de médecine offrant la formation post-M.D.
- B. Domaine de formation post-M.D.
- C. Diplôme M.D.
- D. Source de financement pour la formation post-M.D.
- E. Sexe
- F. Statut légal
- G. Stagiaires en première année de formation post-M.D.

M.D. DEGREE

1. Year in which the M.D. degree was received

Location of university which awarded the M.D. degree
(Canada vs outside Canada)
2. Field of training

Location of university which awarded the M.D. degree
(see Table I-4)
3. Location of university which awarded the M.D. degree

Faculty of medicine providing post-M.D. training
- 3i. Location of university which awarded the M.D. degree

Faculty of medicine providing post-M.D. training
(interns and residents only - fellows not included)
4. Post-M.D. trainees in Canada

Country of location of university which awarded the M.D. degree
5. Location of university which awarded the M.D. degree

Rank
6. Location of university which awarded the M.D. degree

Source of funding for post-M.D. training
(see Table D-4)

DIPLOME M.D.

1. Année d'obtention du diplôme M.D.

Endroit où est située l'université qui a conféré le diplôme M.D.
(Canada vs hors Canada)
2. Domaine de formation

Endroit où est située l'université qui a conféré le diplôme M.D.
(voir tableau I-4)
3. Endroit où est située l'université qui a conféré le diplôme M.D.

Faculté de médecine offrant la formation post-M.D.
- 3i. Endroit où est située l'université qui a conféré le diplôme M.D.

Faculté de médecine offrant la formation post-M.D.
(internes et résidents seulement - les "fellows" ne sont pas compris)
4. Stagiaires post-M.D. au Canada

Pays où est située l'université qui a conféré le diplôme M.D.
5. Endroit où est située l'université qui a conféré le diplôme M.D.

Rang
6. Endroit où est située l'université qui a conféré le diplôme M.D.

Source de financement pour la formation post-M.D.
(voir tableau D-4)

***TRAINEES WHO EXITED POST-M.D. TRAINING BETWEEN
NOVEMBER 1, 1991 AND NOVEMBER 1, 1992***

For the purposes of Physician resource planning, the flow through the post-M.D. training system is a most important concept. In earlier editions of the CAPER annual census of post-M.D. trainees, data were provided in section H concerning trainees who *expected* to complete training in the year after the data were received (ex: trainees reported on Nov 1, 1991 who expected to complete training in 1992). These data were dependent upon individual responses from trainees to optional questions concerning the future. Usefulness of the data for planning purposes posed problems as a considerable proportion of trainees (28.7% in 1992) chose not to respond to this question.

This year, a data file was created containing information on all post-M.D. trainees who were reported to CAPER on November 1, 1991 and were not reported to CAPER on November 1, 1992. This group contains all trainees who exited the Canadian post-M.D. training system in the one year period. A series of matches between the 1991 and 1992 CAPER files was made so that name changes would be taken into consideration. The exit group includes both trainees who have left training temporarily for one or more academic years and those who are exiting at the final completion of training.

The following four groups were isolated in order to describe the flow of trainees through the Canadian post-M.D. system.

I Graduates of Canadian Faculties of Medicine

- A. Canadian M.D. graduates who went directly through post-M.D. training.
- B. Canadian post-M.D. trainees who had re-entered training after a break of at least one year (the determination of a break from training is based on year of receipt of the M.D. degree and training level). It is assumed that these trainees are not entering the practice pool for the first time.

II Graduates of Faculties of Medicine Located Outside Canada

- A. Graduates of faculties of medicine located outside Canada who were Canadian citizens or permanent residents during their last year of post-M.D. training.
- B. Graduates of faculties of medicine located outside Canada who were pursuing post-M.D. training while in Canada on a temporary employment visa.

I Graduates of Canadian Faculties of Medicine

By comparing the year in which an individual received the M.D. degree and the rank level at which they exited post-M.D. training, one can isolate the group of trainees who proceeded directly through post-M.D. training after the M.D. degree. Table 1 gives the rank level of all Canadian M.D. graduates who exited post-M.D. training between November 1, 1991 and 1992. Altogether, 1962 graduates of Canadian faculties of medicine left post-M.D. training (either permanently or temporarily during the last year. 376 left after one year of post-M.D. training from either rotating or comprehensive internships. The majority of trainees leaving at the second year residency level (R-2) were those trainees completing family medicine training. A total of 599 Canadian graduates exited at this level. The 83 trainees exiting at the R-3 level would have acquired enhanced family medicine training (family medicine with an additional training year in a field of training such as anaesthesia, care of the elderly, emergency medicine or obstetrics). 489 trainees would be exiting from a 4 year program in specialty training and 212 trainees had an additional year of specialty training. 111 Canadian graduates were exiting after a period of time spent in a fellowship training program - training not required in fulfilment of the specialty program requirements. Fellowship training may be taken either immediately following the specialty training or after a time in practice.

Table 1
Graduates of Canadian Faculties of Medicine
Exiting Training Between Nov 1, 1991 and Nov 1, 1992

Year of Receipt of M.D. Degree	Post M.D. Year 1	R-1 Not Year 1	R-2	R-3	R-4	R-5	R-6	Fellow	Total
1991	368								368

Subtotal**	5	22	16	14	134	43	11	17	262
All Canadian Graduates	376	71	599	83	489	211	22	111	1962

* Graduates of Canadian faculties of medicine going straight through Post-M.D. training immediately after completion of the M.D. degree. (An extra year of training to account for delays due to program changes or leaves of absence was added into the determination of this group.)

** Graduates of Canadian faculties of medicine who were not exiting Post-M.D. training for the first time.

Isolation of the new entry and re-entry group of graduates of Canadian Faculties of Medicine.

Table 1 displays the year of receipt of the M.D. degree and the rank level of all graduates of Canadian faculties of medicine who exited post-M.D. training between November 1, 1991 and November 1, 1992. It can be seen that all graduates of Canadian faculties of medicine exiting in the past year received the M.D. degree between 1963 and 1992. The shaded area contains all trainees exiting post-M.D. training within the appropriate time for the rank level at which they exited. These trainees comprise the **new entry group** and are assumed to be entering practice for the first time. The selection of this group depended upon the choice of a cut-off time period to designate an appropriate time to reach a specific rank level. For example, trainees exiting at the R-5 level were considered to be within the cohort progressing directly through training if they were exiting within 7 years of receipt of the M.D. degree (trainees who received the M.D. degree since 1985 exiting training at the R-5 level between Nov 1, 1991 and Nov 1, 1992). Using this method, it was determined that 1700 graduates of Canadian faculties of medicine exited post-M.D. training after having proceeded directly through training. There were 262 trainees exiting post-M.D. training after what would be considered an extended break in training of more than one year. These trainees comprise the **re-entry group**. It must be stressed that the criteria isolating the two groups of graduates of Canadian Faculties of Medicine could be adjusted to include a larger or smaller number of the trainees who took an extended time to complete training.

Table 2 compares the field of training of the two exit cohorts of graduates of Canadian Faculties of Medicine: 1) trainees who went directly through post-M.D. training and 2) those who took a break from training. In the group of trainees exiting post-M.D. training for the first time, 56% of the trainees were enrolled in either Family Medicine (35.8%) or Rotating/Mixed Internships (20.2%) during their last year of post-M.D. training. 28.4% were exiting from Medical specialties, 2.2% from laboratory medicine specialties and 13.5% from surgical specialties. Understandably, physicians who took a break from training and are re-entering practice are overwhelmingly exiting from specialty training programs.

II Graduates of Faculties of Medicine Located Outside of Canada

There are two main categories of graduates of foreign medical schools exiting Canadian post-M.D. training programs: those who are expected to remain in Canada (Canadian citizens and permanent residents) and those who are expected to leave Canada after completing post-M.D. training (visa trainees). **Table 3** compares the field of training of these two groups of graduates of foreign medical schools. Of the trainees expected to stay in Canada, over 25% are exiting either rotating/mixed internships (8.2%) or family medicine programs (16.8%). 55.9% of the trainees exited medical specialty programs, 7% exited laboratory medicine programs and 12.1% exited surgical programs. The exiting group of visa trainees, on the other hand, consisted of very few trainees leaving non-specialized and family medicine programs (1.7%) with higher proportions in the specialties, specifically in the medical specialties.

Trainees Exiting the Canadian Post-M.D. training programs between Nov 1, 1991 and Nov 1, 1992.

Four main exit groups have been isolated. The total number of trainees in each group is summarized in **Table 4**

Table 4
Summary Table
Trainees Exiting Canadian Post-M.D. Training Programs
Between Nov 1, 1991 and Nov 1, 1992

EXIT GROUP	DESCRIPTION	NO. OF TRAINEES
1A	CANADIAN GRADUATES WHO WENT STRAIGHT THROUGH POST-M.D. TRAINING	1700
1B	CANADIAN M.D. GRADUATES WHO HAD TAKEN A BREAK IN TRAINING	262
2A	GRADUATES OF FACULTIES OF MEDICINE LOCATED OUTSIDE CANADA WHO WERE CANADIAN CITIZENS OR PERMANENT RESIDENTS ON NOVEMBER 1, 1991	256
2B	GRADUATES OF FACULTIES OF MEDICINE LOCATED OUTSIDE CANADA WHO WERE VISA TRAINEES ON NOVEMBER 1, 1991	355
TOTAL	ALL TRAINEES WHO EXITED CANADIAN POST-M.D. TRAINING PROGRAMS BETWEEN NOV 1, 1991 AND NOV 1, 1992	2573

Practice Entry Cohort

In order to estimate the number of new physicians entering the practice of medicine in Canada through the post-M.D. training programs, trainees from Group 1A and 2A were combined. Graduates of Canadian Faculties of Medicine who are assumed to have previously entered practice and graduates of foreign medical schools who held an employment visa at the beginning of their last year of post-M.D. training were not included in the entry cohort. It must be remembered, however, that some of the graduates of Canadian faculties of medicine are exiting training only temporarily and will re-enter training. There were 1956 trainees in this entry cohort: 1700 graduates of Canadian faculties of medicine and 256 graduates of faculties of medicine located outside Canada. The following tables (H-1, H-2) were prepared using the entry cohort consisting of exit groups I A and II A.

Field of Training by Province of Post-M.D. Training
