ACKNOWLEDGEMENTS

CAPER is directed and funded by seven participating organizations: The Association of Canadian Medical Colleges, the Canadian Association of Internes and Residents, The College of Family Physicians of Canada, the Canadian Medical Association, Health Canada, 11 provincial/territorial ministries of health and The Royal College of Physicians and Surgeons of Canada. The work of the representatives of these organizations on behalf of CAPER is certainly appreciated.

Many thanks to the ACMC Office of Research and Information Services for assisting CAPER in the verification of data concerning the Canadian M.D. graduates. The co-operation of the ACMC staff in many of CAPER's projects provides a most important perspective on the undergraduate phase of medical education as it relates to post-M.D. training. The postgraduate deans and their assistants at the 16 Canadian faculties of medicine have conscientiously provided CAPER with the necessary basic information. Their continuing help is essential. The CAPER staff, Les Forward (data base manager) and Karen Edmonds (administrative assistant), ensure the timely publication of these data.

The Department of Health Policy and Economics of the Canadian Medical Association has continued its close working relationship with CAPER. The CMA's contribution to enhancing the CAPER data through the provision of information concerning the practice location of physicians who have been tracked through the CAPER system to the point of exit has been most significant: thank you, Lynda Buske and Owen Adams.

This year information from the Canadian Resident Matching Service (CaRMS) and the *Conférence des recteurs et des principaux des universités du Québec* (CREPUQ) has been included in this book. A sincere thank you is extended to Sandra Banner (CaRMS) and Joanne Néron (CREPUQ) for their co-operation in providing the necessary data.

On behalf of the CAPER Policy Committee, special appreciation is extended to Dr. Reginald Perkin, the past Executive Director of The College of Family Physicians of Canada, for his service to CAPER. His personal interest in CAPER and in the

REMERCIEMENTS

CAPER est dirigé et financé par les sept organismes suivants : L'Association des facultés de médecine du Canada, l'Association canadienne des internes et des résidents, Le Collège des médecins de famille du Canada, l'Association médicale canadienne, Santé Canada, 11 ministères provinciaux et territoriaux de la santé et Le Collège royal des médecins et chirurgiens du Canada. Nous voulons exprimer toute notre appréciation pour le travail accompli par les représentants de ces organismes.

Nous remercions aussi le personnel du Service de recherche et d'information de l'AFMC pour son aide dans la vérification des données sur les diplômés en médecine du Canada. La collaboration du personnel de l'AFMC dans la réalisation de nombreux projets de CAPER a mis en lumière la phase prédoctorale de l'éducation médicale et sa relation avec la formation postdoctorale. Les vice-doyens aux études postdoctorales des 16 facultés de médecine et leurs assistants ont mis consciencieusement à la disposition de CAPER les renseignements de base nécessaires. Leur assistance sans faille est essentielle. Grâce au personnel de CAPER, Les Forward (gestionnaire de la base de données) et Karen Edmonds (assistante administrative), la publication de ces données s'est faite en temps voulu.

CAPER poursuit son étroite relation avec le département de la politique et de l'économique de santé de l'Association médicale du Canada (AMC) qui, en fournissant les renseignements concernant le lieu d'exercice des médecins suivis par CAPER jusqu'à leur sortie du système, a grandement amélioré la qualité des données de CAPER; cette contribution a joué un rôle des plus importants. Merci à Lynda Buske et Owen Adams.

On a ajouté, dans ce livre, cette année, des renseignements provenant du *Canadian Resident Matching Service* (CaRMS) et de la *Conférence des recteurs et des principaux des universités du Québec* (CREPUQ). Sandra Banner (CaRMS) et Joanne Néron (CREPUQ) ont fourni les données nécessaires, nous les remercions sincèrement pour leur coopération.

Au nom du Comité d'orientation de CAPER, je voudrais exprimer notre reconnaissance au

national perspective the data provide has been essential to the continuing operations of CAPER over the last 10 years.

Many thanks to Dr. Lucinda Whitman who assumed the chairmanship of CAPER in April 1995. She has ensured that CAPER continues to meet the changing data needs of all of the constituents.

Again, as director of CAPER, it has been a privilege to work with a most stimulating group of colleagues who have kept me up-to-date on the many facets of post-M.D. training in Canada.

A. Dianne Thurber, M.A.
Director, CAPER

docteur Reginald Perkin, ancien président du Collège des médecins de famille du Canada, pour les services rendus à CAPER. l'intérêt personnel qu'il a montré dans le travail et dans la portée nationale des données de CAPER a été essentiel pour la poursuite des activités de CAPER, ces dix dernières années.

Nous voulons également remercier la docteure Lucinda Whitman qui a assumé la présidence de CAPER depuis avril 1995 et grâce à qui CAPER peut continuer de répondre aux besoins changeants de tous les constituants.

Enfin, ce fut un privilège, en tant que directrice générale, de travailler avec un groupe de collègues aussi stimulants et qui m'ont constamment tenue au courant de l'évolution des multiples facettes de la formation post-M.D. au Canada.

A. Dianne Thurber, M.A.
Directrice, CAPER

PREFACE TO THE 1995 DATA

This is the second year in which all new graduate physicians in Canada are required to have two years of pre-licensure training in order to obtain a portable provincial or territorial licence to practice medicine. The faculties of medicine are reporting an especially high number of trainees this year at the R-3 level. Last year this bulge was at the R-2 level.

Also, this year there is an increase in the number of R-1 trainees over the previous year. The explanation for this is that in 1994 an exceptionally high number of students in the M.D. programs chose to take an additional year to complete the M.D. degree (doing a four-year program in five years). This trend was most common to the faculties of medicine in Quebec.

Be sure to read the "definitions" section carefully, especially the section pertaining to rank.

USING THE CAPER DATA BASE

The CAPER data base has been designed to serve as an information resource for physician workforce planning on a national and provincial or regional basis in Canada. Information is held in an individual longitudinal format to permit the study of the flow of trainees through the post-M.D. training system. Although information permitting the identification of individuals is not released from CAPER, group data tabulations and statistics will be prepared in response to requests. Preparation will be on a cost-recovery basis. Examples of some of the categories into which tabulations can be grouped are: provinces, training fields, or cohorts of M.D. graduates. The CAPER data base has been designed to study the mobility of trainees between faculties of medicine, provinces and training fields. Also, thanks to the co-operation of the CMA Department of Health Policy and Economics, CAPER can provide data concerning the geographic location of cohorts of post-M.D. trainees who have exited the training programs. Data requests made to CAPER are welcome.

PRÉFACE AUX DONNÉES DE 1995

Chaque diplômé doit, depuis maintenant deux ans, suivre une formation de deux ans de avant d'obtenir le permis d'exercice provincial ou territorial exercer la médecine dans tout le pays. Cette année, les facultés de médecine ont, au niveau R-3, un taux particulièrement élevé de stagiaires. L'année dernière ce taux élevé était au niveau R-2.

Il y a, cette année, par rapport aux années précédentes, une augmentation du nombre des stagiaires au niveau R-1. Ceci s'explique par le fait qu'en 1994, un nombre élevé d'étudiants en médecine ont mis une année de plus pour obtenir leur diplôme (terminant un programme de 4 ans en 5 ans). C'est une tendance des plus courante dans les facultés de médecine québécoise.

N'oubliez pas de lire attentivement la section "définitions", particulièrement la partie qui concerne le rang.

UTILISATION DE LA BASE DE DONNÉES DE CAPER

La base de données de CAPER fut conçue comme source d'information pour la planification de la main-d'oeuvre médicale au niveau national et provincial ou régional. L'information est cueillie sous forme de fiches longitudinales individuelles afin de pouvoir obtenir un vue d'ensemble des stagiaires inscrits à la formation post-M.D. Bien que CAPER ne divulgue aucun renseignement permettant d'identifier des individus, des tableaux et des statistiques de groupe peuvent être préparés sur demande. Ce service est offert à prix coûtant. Les données peuvent être groupées selon les catégories suivantes : provinces, domaines de formation ou cohortes de stagiaires post-M.D. La base de données fut conçue pour permettre l'étude de la mobilité des stagiaires entre facultés de médecine, provinces et domaines de formation. CAPER, grâce à la collaboration du département de la politique et de l'économique de santé de l'AMC, peut également fournir des données sur le lieu géographique des promotions de stagiaires ayant terminé leur formation. Toutes demandes de statistiques faites auprès de CAPER seront les bienvenues.

BACKGROUND

CAPER (the Canadian Post-M.D. Education Registry) was established in 1986 through the co-operation of national medical organizations with an interest in the post-M.D. clinical education of physicians in Canada. The Association of Canadian Medical Colleges, the Canadian Association of Internes and Residents, the Canadian Medical Association, The College of Family Physicians of Canada, Health Canada, and The Royal College of Physicians and Surgeons of Canada, have provided both expertise and financial support for the development and operation of CAPER since 1986. Provincial and territorial ministries of health have contributed to CAPER beginning in 1992. Participation of the provincial ministries has been coordinated by the chairperson of the Federal/Provincial/Territorial Advisory Committee on Health Human Resources, Mrs. B. Hoyt-Hallett.

CAPER is incorporated within the by-laws of The Association of Canadian Medical Colleges with the mandate to provide accurate information which may be used for medical manpower planning on a national basis. To accomplish this task, an individual longitudinal file is maintained containing socio-demographic information, details of the current training program and career goal plans of each intern, resident or fellow under the supervision of the Canadian faculties of medicine on November 1 of each year. The data in this document are derived from information submitted for November 1, 1995.

HISTORIQUE

CAPER (Système informatisé sur les stagiaires post-M.D. en formation clinique) a été établi en 1986 avec la coopération de diverses organisations médicales du Canada intéressées par la formation clinique post-M.D. au Canada. L'Association des facultés de médecine du Canada, l'Association canadienne des internes et des résidents, l'Association médicale canadienne, Le Collège des médecins de famille du Canada, Santé Canada, ainsi que Le Collège royal des médecins et chirurgiens du Canada ont contribué depuis 1986 au développement et au bon fonctionnement de CAPER en partageant leurs connaissances et en lui apportant un soutien financier. Les ministères provinciaux et territoriaux de la Santé ont participé aux activités de CAPER depuis 1992 par l'entremise de la présidente du Comité consultatif des ressources humaines en santé, Mme B. Hoyt-Hallett.

CAPER est constitué en société dans le cadre des statuts de L'Association des facultés de médecine du Canada avec pour mandat de fournir des renseignements précis pouvant être utilisés pour fins de planification de la main-d'œuvre médicale au niveau national. Pour ce faire, un fichier longitudinal est tenu à jour contenant l'information pertinente à chaque interne, résident ou "fellow" inscrit aux différentes facultés de médecine canadiennes en date du 1^{er} novembre de chaque année. L'information socio-démographique, les détails du programme de formation ainsi que l'orientation professionnelle y sont inclus. Les données de ce document reflètent l'information soumise au 1^{er} novembre 1995.

THE REPORTING PROCESS

The individual records of all trainees under the supervision of each Canadian faculty of medicine are provided to CAPER by the postgraduate medical education office of the respective faculty. All post-M.D. trainees (interns, residents, and fellows) in training positions on November 1 of the current academic year are reported to CAPER. The following information is included in the yearly report:

- the faculty of medicine supervising post-M.D. training
- socio-demographic details
- previous medical education and certification
- field of current post-M.D. training, and
- professional goal and date of completion of training.

This information is collected by all faculties at the time of registration for post-M.D. training each year and is sent to CAPER, in coded form, on diskette or magnetic tape. Information sent to CAPER is checked for missing or incorrect items. Reports are then sent back to the appropriate postgraduate medical education office of the Canadian faculties of medicine for further verification of the information on their trainees.

Confidentiality of individual records

The CAPER policy concerning the confidentiality of individual records is as follows:

CAPER undertakes to maintain as confidential the identity of any individual to whom information it collects applies and no information shall be released or disclosed to any third party except as provided below.

Where a request is made for the disclosure of information in the possession of CAPER, such information may be disclosed only where the information is to be used for statistical purposes and where CAPER has been satisfied that the identity of the individuals to whom the information relates cannot be determined.

The CAPER Executive Committee shall ensure that appropriate confidentiality safeguards are in place and establish terms and conditions of disclosure of individual records.

PROCÉDURE DE CUEILLETTE

Les bureaux de formation post-M.D. de chaque faculté de médecine fournissent à CAPER les rapports contenant les données sur les stagiaires de leur propre faculté. Le rapport fait à CAPER inclut l'information sur tous les stagiaires post-M.D. (internes, résidents, associés ou moniteurs/boursiers) qui sont inscrits en date du 1^{er} novembre de chaque année. Les renseignements suivants sont inclus dans le rapport annuel :

- la faculté de médecine offrant la formation post-M.D.
- détails sociodémographiques
- formation médicale antérieure et certification
- domaine de formation en cours, et
- orientation professionnelle et date prévue de la fin de la formation clinique.

A chaque année, les facultés de médecine recueillent les renseignements lors de l'inscription pour la formation post-M.D. et font parvenir le tout à CAPER sous forme de codes, soit sur ruban ou sur disquette. Le personnel de CAPER vérifie cette information afin de déceler les omissions et les inexactitudes. Les rapports sont ensuite retournés aux bureaux post-M.D. de chaque faculté de médecine canadienne afin que les renseignements soient vérifiés de nouveau.

Confidentialité de l'information personnelle

La politique de CAPER sur les renseignements personnels confidentiels est la suivante :

L'identité de toute personne concernée par les renseignements rassemblés par CAPER est considérée par ce dernier comme confidentielle et les renseignements ne seront divulgués à un tiers que dans le cas énoncé ci-après.

Les renseignements en possession de CAPER ne peuvent être divulgués que sur demande et que si CAPER a l'assurance qu'ils ne seront utilisés qu'à des fins d'études statistiques et que les personnes concernées par ces renseignements ne pourront pas être identifiées.

Des garanties adéquates devront être mises en place sous la direction du Comité exécutif de CAPER et ce dernier devra établir les termes et conditions de divulgation des fiches individuelles.

FIRST YEAR TRAINEES

Only first-time trainees in their first year of post-M.D. training in Canada at the R-1 level are designated as "first year trainees" and are included in Section G of the book. Other trainees at the R-1 level who are re-entering training, repeating the first year, or changing specialties requiring a second year at the R-1 level are NOT included in Section G on first year trainees.

Trainees included in the first year trainee category according to CAPER are:

1. Graduates of Canadian medical schools at the R-1 training level who have not been previously reported to CAPER;
2. Graduates of foreign medical schools who are entering training at the R-1 level in Canada for the first time. (Visa trainees beginning a program at the R-1 level are, therefore, included in this group.)

COMPLETION OF TRAINING

This term is used in Section J to indicate that the group exited training at a level appropriate for completion of training (e.g. R-2 or higher for family medicine, R-4 or higher for most RCPSC specialties and R-5 or higher for subspecialties and certain surgical specialties).

STATUT LÉGAL

On utilise trois catégories :

Citoyen canadien

le stagiaire est citoyen canadien

Résident permanent

un individu ayant reçu le droit d'établissement au Canada et qui, en tant que tel, a le droit de vivre et travailler au Canada

Visa

le stagiaire est en possession d'un visa permettant d'être employé temporairement en tant que stagiaire post-M.D.

STAGIAIRES EN PREMIÈRE ANNÉE POST-M.D.

Seuls les stagiaires en première année post-M.D. au Canada pour la première fois sont regroupés dans la catégorie "stagiaires en première année post-M.D. (first year trainees)" et sont inclus dans la section G de ce document. Les autres stagiaires du niveau R-1 qui reprennent une formation, redoublent leur première année ou changent de spécialité et ont besoin de recommencer une première année au niveau R-1 NE SONT PAS inclus dans la section G dans la catégorie "stagiaires en première année post-M.D."

Selon CAPER, les stagiaires regroupés dans la catégorie "stagiaires en première année post-M.D. (first year trainees)" sont les suivants :

1. les diplômés des facultés de médecine canadiennes au niveau R-1 et n'ayant pas encore été enregistrés dans les données de CAPER;
2. les diplômés de facultés de médecine étrangères qui sont admis au niveau R-1 au Canada pour la première fois. (Les stagiaires possédant un visa et débutant une formation au niveau R-1 sont donc inclus dans cette catégorie.)

FIN DE FORMATION

Ce terme est utilisé dans la section J et signifie que le groupe a atteint le niveau d'études correspondant à la fin de formation (par exemple : R-2 pour la médecine de famille, R-4 ou plus pour la plupart des spécialités du Collège royal et R-5 pour les sous-spécialités et certaines spécialités de chirurgie).

medicine and who, regardless of the source of funding, is pursuing clinical or research training which will NOT be evaluated by the supervising faculty for the purpose of Canadian licensure, or certification by The College of Family Physicians of Canada, the *Collège des médecins du Québec* or The Royal College of Physicians and Surgeons of Canada. (Trainees with appropriate prerequisite training registered in RCPSC "accreditation without certification" programs are considered as residents, not fellows.)

LOCATION OF THE FACULTY OF MEDICINE THAT AWARDED THE M.D. DEGREE

For individuals who earned the degree in Canada, the province of location of the faculty of medicine that awarded the M.D. degree is used. Post-M.D. trainees who earned the M.D. degree outside Canada are classified as such.

SOURCE OF FUNDING

The source of funding is the organization or government agency providing the funding for the position occupied by the trainee. Two categories are used: "Regular Ministry Funds" and "Other Funds". "Regular Ministry Funds" refers to funds provided by the appropriate provincial government ministry responsible for the training of interns and residents within that province. All other funding sources are grouped as "Other Funds".

AGE

Age is calculated as the age of the trainee on July 1, 1995. (The age of the trainee at the beginning of the July 1995 training session.)

LEGAL STATUS

Three categories are used:

Canadian Citizen

trainee is a citizen of Canada

Permanent Resident

an individual who has been accepted as a landed immigrant and has the right to live and work in Canada

Visa

trainees holding a visa permitting employment in Canada temporarily as a post-M.D. trainee

augmentation évidente du nombre des "fellows" de l'UBC. Cependant, cette augmentation est due à une meilleure communication de la faculté.

"Fellows" : CAPER utilise la définition du terme "fellow" énoncée ci-après : un stagiaire post-M.D. qui est inscrit auprès du Bureau de l'éducation médicale post-M.D. de la faculté de médecine d'une université et qui, quelque soit la source du financement, poursuit un stage clinique ou de recherche n'étant PAS évalué par la faculté supervisante en vue de l'obtention du permis d'exercer la médecine au Canada ou de la certification par Le Collège des médecins de famille du Canada, par le Collège des médecins du Québec ou par Le Collège royal des médecins et chirurgiens du Canada. (Les stagiaires possédant la formation requise et qui sont inscrits dans les programmes de "l'agrément sans le certificat" du CRMCC sont considérés comme des résidents et non comme des "fellows".)

LIEU DE LA FACULTÉ DE MÉDECINE QUI A DÉCERNÉ LE DIPLÔME M.D.

Pour les individus qui ont reçu leur diplôme au Canada, la province de la faculté de médecine qui a décerné le diplôme M.D. est utilisé. Ceux qui ont reçu leur diplôme ailleurs qu'au Canada sont classifiés en tant que diplômés de facultés de médecine étrangères.

SOURCE DE FINANCEMENT

La source de financement est l'organisme ou l'agence gouvernementale qui fournit le financement pour la position occupée par le stagiaire. Deux catégories sont utilisées : "Fonds ministériels habituels" et "Autres fonds". Les "Fonds ministériels habituels" sont les fonds provenant des ministères des gouvernements provinciaux appropriés responsables des stages des internes et des résidents au sein de la province. Tous les autres sources de financement sont regroupés sous l'appellation "Autres fonds".

ÂGE

L'âge est calculé en fonction de l'âge du stagiaire au 1^{er} juillet 1995. (L'âge du stagiaire au commencement de la séance de stage de juillet 1995).

RANK

All new M.D. graduates now enter directly into either a family medicine or a specialty training program at the R-1 level.

Two years of training at the R-1 and R-2 levels are required for certification in family medicine. R-3 level training in family medicine is provided in the accredited family medicine training programs in Care of the Elderly and Emergency Medicine as well as in other additional training programs. To meet the training requirements of the RCPSC a minimum of four to six years of training are required, depending on the specific specialty in which certification is sought.

A trainee progresses through the rank levels in the following sequence:

R-1 (family medicine or specialty training)
R-2
R-3
R-4
R-5
R-6
R-7

The following details concerning the ranking system in specific provinces are to be noted:

Ontario

Within the Ontario post-M.D. training programs the post-M.D. year 1 rank level is used in conjunction with the rank levels R-1 to R-7. For the purposes of CAPER data the R-1 and R-2 levels of training have been combined and are reported as the R-2 level by CAPER. All trainees at the post-M.D. year 1 level in Ontario are reported at the R-1 level by CAPER. Trainees in the R-3 through R-7 levels in Ontario are reported at the R-3 to R-7 levels in CAPER reports. Fellows in Ontario are reported as fellows by CAPER.

British Columbia

This year, fellows in B.C. training programs were reported to CAPER. This resulted in an apparent increase in the number of fellows at UBC. However, better reporting by the faculty accounts for the increase.

Fellows: CAPER uses the following definition of the term "fellow": A post-M.D. trainee who is registered with the Postgraduate Medical Education Office of a university faculty of

générale. Tous les stagiaires en chirurgie thoracique sont considérés cette année par CAPER comme étant en sous-spécialité.

RANG

Tous les nouveaux diplômés en médecine doivent commencer maintenant leur formation postdoctorale au niveau R-1 soit par le programme de médecine de famille soit par un programme de spécialité.

Le certificat de médecine de famille s'obtient en deux années de formation, soit les niveaux R-1 et R-2. Le certificat de médecine de famille est une formation de deux ans, soit les niveaux R-1 et R-2. Le niveau R-3 de médecine de famille est dispensé par les programmes agréés de médecine de famille spécialisés dans les soins aux personnes âgées, la médecine d'urgence et d'autres programmes de formation. Selon la spécialité choisie, un minimum de 4 à 6 années sont nécessaires pour obtenir un certificat du CRMCC.

Un stagiaire progresse de la façon suivante :

R-1 (médecine de famille ou spécialité)
R-2
R-3
R-4
R-5
R-6
R-7

Notez ci-après des détails concernant le système de classement spécifiques à certaines provinces :

Ontario

Dans les programmes de formation postdoctorale de l'Ontario, la première année post-M.D. est incluse dans le classement des niveaux R-1 à R-7. Dans le rapport de CAPER, les stagiaires des niveaux R-1 et R-2 ont été regroupés au niveau R-2. Tous les stagiaires en première année post-M.D. en Ontario se retrouvent au niveau R-1 dans le rapport de CAPER. Les stagiaires des niveaux R-3 à R-7 en Ontario se retrouvent aux niveaux R-3 à R-7 dans le rapport de CAPER. Les "fellows" en Ontario se retrouvent sous l'appellation "fellows" dans le rapport de CAPER.

Colombie-Britannique

Cette année, les "fellows" des programmes de Colombie-Britannique sont inclus dans les données de CAPER. On peut donc remarquer une

DEFINITIONS

The data provided to CAPER by the sixteen faculties of medicine contain the information on each trainee in accordance with definitions established by CAPER. Following are these definitions and other important details pertaining to the specific variables used in the tables presented in this document.

FACULTY OF MEDICINE PROVIDING POST-M.D.

TRAINING

The faculty of medicine supervising the post-M.D. trainee on November 1 of the report year.

FIELD OF POST-M.D. TRAINING

The type of non-specialized training, family medicine training, or the speciality field in which a trainee is enrolled on November 1 of the report year.

Note: Cardiothoracic Surgery and Cardiac Surgery

The year 1995–96 has been a transition period for the development of a new RCPSC specialty, Cardiac Surgery. The specialty Cardiothoracic Surgery will no longer be an accredited RCPSC specialty once Cardiac Surgery programs are accredited at the faculties of medicine offering the program. This year trainees who had previously entered the Cardiothoracic Surgery program are listed by CAPER as being in that program. These trainees are all at or above the R-5 training level. Trainees listed in Cardiac Surgery by the faculties of medicine are reported as such by CAPER.

Thoracic Surgery - specialty and subspecialty

The year 1995–1996 has been a transition year for the shift from the subspecialty of Thoracic Surgery to a “stand-alone” specialty. As a subspecialty, Thoracic Surgery training required previous certification in General Surgery. This year CAPER has reported all trainees in Thoracic Surgery as being in the subspecialty.

DÉFINITIONS

Les données, fournies par les seize facultés de médecine à CAPER, contiennent les renseignements concernant chaque stagiaire suivant les définitions établies par CAPER. Ces définitions, ainsi que d'autres détails importants relatifs aux variables spécifiques utilisées dans les tableaux présentés dans ce document, sont énoncés ci-après.

FACULTÉ DE MÉDECINE OFFRANT LA FORMATION POST-M.D.

La faculté de médecine supervisant le stagiaire d'un programme post-M.D. au 1^{er} novembre de l'année du rapport.

DOMAINE DE FORMATION POST-M.D.

Le genre de stage non spécialisé, de médecine de famille, ou la spécialité auquel le stagiaire s'est inscrit au 1^{er} novembre de l'année du rapport.

Note : “Cardiothoracic Surgery” (chirurgie cardio-thoracique) et “Cardiac Surgery” (chirurgie cardiaque)

L'année 1995–96 a été une période de transition pour la création d'une nouvelle spécialité du Collège royal : la chirurgie cardiaque. La chirurgie cardiothoracique ne sera plus une spécialité agréée dès que les programmes de chirurgie cardiaque des facultés de médecine offrant ce programme seront agréés. Les stagiaires inscrits cette année dans les programmes de chirurgie cardiothoracique sont considérés par CAPER comme faisant partie de ce programme. Ces stagiaires sont tous au niveau R-5 ou à un niveau supérieur. Les stagiaires inscrits en chirurgie cardiaque dans les facultés de médecine sont considérés comme tels par CAPER.

“Thoracic Surgery” (chirurgie thoracique) - spécialité et sous-spécialité

L'année 1995–96 a été une année de transition pour la chirurgie thoracique marquant son passage du statut de sous-spécialité au statut de spécialité “à part entière”. En tant que sous-spécialité, les stagiaires en chirurgie thoracique devaient posséder le certificat de chirurgie

**DATA FROM THE 1995-1996 CAPER
ANNUAL CENSUS OF POST-M.D.
TRAINEES**

The following tables are grouped under topics of significance to post-M.D. training in Canada. The tables that have been selected give an overview of the distribution of the post-M.D. trainee population in Canada, among the provinces, faculties of medicine, and fields of training. These tables represent only a sample of the many ways variables can be combined to provide useful and interesting data. See the section at the front of this report titled "USING THE CAPER DATA BASE" if you wish to request specific tables.

**DONNÉES PROVENANT DU
RECENSEMENT ANNUEL DES
STAGIAIRES POST-M.D. 1995-1996**

Les tableaux sont groupés selon les domaines d'intérêt à la formation post-M.D. au Canada. Les tableaux choisis donnent une vue d'ensemble de la distribution des stagiaires post-M.D. à travers le Canada, parmi les provinces, les facultés de médecine et les domaines de formation. Ces tableaux ne représentent qu'un échantillon des multiples façons d'utiliser les variables afin de fournir une information qui soit à la fois utile et intéressante. Si vous désirez obtenir des tableaux spécifiques, reportez-vous à la section intitulée "UTILISATION DE LA BASE DE DONNÉES DE CAPER" située au début de cet ouvrage.

Stagiaires post-M.D. sous la direction des facultés
de médecine canadiennes en date du 1er novembre 1995

Post-M.D. trainees under the supervision of the
Canadian Faculties of Medicine November 1, 1995

**RESIDENTS (FELLOWS NOT INCLUDED) WHO RECEIVED THE M.D. DEGREE
IN THE PROVINCE OF POST-M.D. TRAINING**

B.

FIELD OF POST-M.D. TRAINING

1. Rank
2. Gender
(see Table I-3)
3. Source of Funding for Post-M.D. Training
(see Table I-1)
4. Province of Location of Faculty of Medicine Providing Post-M.D. Training
- 4i. Province of Location of Faculty of Medicine Providing Post-M.D. Training
(Residents Only - Fellows Not Included)
5. Location of University Which Awarded the M.D. Degree
(see Table I-4)
6. Legal Status

DOMAINE DE FORMATION POST-M.D.

1. Rang
2. Sexe
(voir tableau I-3)
3. Source de financement pour la formation post-M.D.
(voir tableau I-1)
4. Province où est située la faculté de médecine offrant la formation post-M.D.
- 4i. Province où est située la faculté de médecine offrant la formation post-M.D.
(résidents seulement - les "fellows" ne sont pas compris)
5. Endroit où est située l'université qui a décerné le diplôme M.D.
(voir tableau I-4)
6. Statut légal

**TRAINEES WHO EXITED POST-M.D. TRAINING BETWEEN
NOVEMBER 1, 1994 AND NOVEMBER 1, 1995**

For the purposes of physician resource planning, the flow through the post-M.D. training system is a most important concept. In pre-1992-93 editions of the CAPER annual census of post-M.D. trainees, data were provided in section H concerning trainees who *expected* to complete training in the year after the data were received (e.g. trainees reported on Nov 1, 1991 who expected to complete training in 1992). These data were dependent upon individual responses from trainees to optional questions concerning the future. Usefulness of the data for planning purposes posed problems as a considerable proportion of trainees chose not to or were unable to respond to this question.

This year a data file was created containing information on all post-M.D. trainees who were reported to CAPER on November 1, 1994 and were not reported to CAPER on November 1, 1995. This group contains all trainees who exited the Canadian post-M.D. training system in the one-year period. The exit group includes both trainees who have left training temporarily for one or more academic years and those who are exiting at the completion of training.

The following four groups were isolated in order to describe the flow of trainees through the Canadian post-M.D. system.

I. Graduates of Canadian Faculties of Medicine

- A. Canadian M.D. graduates who went directly through post-M.D. training.
- B. Canadian post-M.D. trainees who had re-entered training after a break of at least one year. (The determination of a break from training is based on year of receipt of the M.D. degree and training level.) It is assumed that these trainees are not entering the practice pool for the first time.

II. Graduates of Faculties of Medicine Located Outside Canada

- A. Graduates of faculties of medicine located outside Canada who were Canadian citizens or permanent residents during their last year of post-M.D. training.
- B. Graduates of faculties of medicine located outside Canada who were pursuing post-M.D. training while in Canada on a temporary employment visa.

I. Graduates of Canadian Faculties of Medicine

By comparing the year in which an individual received the M.D. degree and the rank level at which they exited post-M.D. training, one can isolate the group of trainees who proceeded directly through post-M.D. training after the M.D. degree. **Table 1** gives the rank level of all Canadian M.D. graduates who exited post-M.D. training between November 1, 1994 and November 1, 1995. Altogether, 1570 graduates of Canadian faculties of medicine left post-M.D. training (either permanently or temporarily) during the last year. 23 left after one year of post-M.D. training. The majority of trainees who left at the second year residency level (R-2) were trainees who had completed family medicine training. A total of 646 Canadian graduates exited at this level. The 87 trainees who exited at the R-3 level would have acquired enhanced family medicine training (family medicine with an additional training year in a field of training such as anesthesia, care of the elderly, emergency medicine or obstetrics). 307 trainees would have exited from a 4-year program in specialty training and 329 trainees had an additional year of specialty training. 131 Canadian graduates exited after a period of time spent in a fellowship training program—training not required in fulfilment of the specialty program requirements. Fellowship training may be taken either immediately following the specialty training or after a time in practice.

All Canadian Graduates	23	646	87	307	329	37	10	131	1570

¹ Trainees exiting training programs requiring more than six years of training.

² Graduates of Canadian faculties of medicine going straight through Post-M.D. training immediately after completion of the M.D. degree. (An extra year of training to account for delays due to program changes or leaves of absence was added into the determination of this group.)

³ Graduates of Canadian faculties of medicine who were not exiting Post-M.D. training for the first time.

Isolation of new entry and re-entry groups of graduates of Canadian faculties of medicine

Table 1 displays the year of receipt of the M.D. degree and the rank level of all graduates of Canadian faculties of medicine who exited post-M.D. training between November 1, 1994 and November 1, 1995. It can be seen that all graduates of Canadian faculties of medicine exiting in the past year received the M.D. degree between 1972 and 1994. The shaded area contains all trainees exiting post-M.D. training within the appropriate time for the rank level at which they exited. These trainees comprise the **new entry to practice group** and are assumed to be entering practice for the first time. The selection of this group depended upon the choice of a cut-off time period to designate an appropriate time to reach a specific rank level. For example, trainees exiting at the R-5 level were considered to be within the cohort progressing directly through training if they were exiting within 7 years of receipt of the M.D. degree (trainees who received the M.D. degree since 1988 exiting training at the R-5 level between Nov 1, 1994 and Nov 1, 1995). Altogether our calculations determined that 1378 graduates of Canadian faculties of medicine exited post-M.D. training after having proceeded directly through training. There were 192 trainees exiting post-M.D. training after what would be considered an extended break in training of more than one year. These trainees comprise the **re-entry to practice group**. It must be stressed that, depending on the selection criteria chosen, the number of trainees in the two groups of exiting Canadian M.D. graduates (new entry and re-entry) would vary; the total (1570) would, of course, stay the same.

Table 2 compares the field of training of the two exit cohorts of graduates of Canadian faculties of medicine: 1) trainees who went directly through post-M.D. training and 2) those who took a break from training. In the group of trainees exiting post-M.D. training for the first time, 47.8% of the trainees were enrolled in family medicine during their last year of post-M.D. training. 34.3% were exiting from medical specialties, 1.8% from laboratory medicine specialties and 16.1% from surgical specialties. On the other hand, physicians who took a break from training and are re-entering practice are overwhelmingly exiting from specialty training programs.

II. Graduates of Faculties of Medicine Located outside Canada

There are two main categories of graduates of foreign medical schools exiting Canadian post-M.D. training programs: those who are expected to remain in Canada (Canadian citizens and permanent residents) and those who are expected to leave Canada after completing post-M.D. training (visa trainees). **Table 3** compares the field of training of these two groups of graduates of foreign medical schools. Of the trainees expected to stay in Canada, 12.5% are exiting family medicine programs. 60.5% of the trainees exited medical specialty programs, 8.8% exited laboratory medicine programs and 17.6% exited surgical programs. The exiting group of visa trainees, on the other hand, consisted of only 1 trainee leaving family medicine with most visa trainees exiting specialty programs.

Trainees exiting Canadian post-M.D. training programs between Nov 1, 1994 and Nov 1, 1995

Four main exit groups have been isolated. The total number of trainees in each group is summarized in **Table 4**.

Table 4
Summary Table
Trainees Exiting Canadian Post-M.D. Training Programs
Between Nov 1, 1994 and Nov 1, 1995

EXIT GROUP	DESCRIPTION	NO. OF TRAINEES
IA	CANADIAN GRADUATES WHO WENT STRAIGHT THROUGH POST-M.D. TRAINING	1377
IB	CANADIAN M.D. GRADUATES WHO HAD TAKEN A BREAK IN TRAINING	193
IIA	GRADUATES OF FACULTIES OF MEDICINE LOCATED OUTSIDE CANADA WHO WERE CANADIAN CITIZENS OR PERMANENT RESIDENTS ON NOVEMBER 1, 1994	296
IIB	GRADUATES OF FACULTIES OF MEDICINE LOCATED OUTSIDE CANADA WHO WERE VISA TRAINEES ON NOVEMBER 1, 1994	320
TOTAL	ALL TRAINEES WHO EXITED CANADIAN POST-M.D. TRAINING PROGRAMS BETWEEN NOV 1, 1994 AND NOV 1, 1995	2186

Practice entry cohort

In order to estimate the number of new physicians entering the practice of medicine in Canada through the post-M.D. training programs, trainees from groups IA and IIA were combined. Graduates of Canadian faculties of medicine who are assumed to have previously entered practice and graduates of foreign medical schools who held an employment visa at the beginning of their last year of post-M.D. training were not included in the practice entry cohort. Although it may be possible, it is less common than in the past that trainees will re-enter training. This is because certification is now a requirement for a licence to practise medicine that is portable between provinces. There were 1673 trainees in this practice entry cohort: 1377 graduates of Canadian faculties of medicine and 296 graduates of faculties of medicine located outside Canada. The following tables (H-1, H-2) were prepared using the practice entry cohort, consisting of exit groups IA and IIA.

I.**TABLES COVERING THE TIME PERIOD FROM 1988 TO 1995**

1. Field of Post-M.D. Training

Source of Funding for Post-M.D. Training
2. Province of Location of Faculty of Medicine Providing Post-M.D. Training

Source of Funding for Post-M.D. Training
- 2i. Province of Location of Faculty of Medicine Providing Post-M.D. Training

Source of Funding for Post-M.D. Training
(Fellows and Visa Trainees Not Included)
3. Field of Post-M.D. Training

Gender
4. Field of Post-M.D. Training

Location of University Which Awarded the M.D. Degree
5. Faculty of Medicine Providing Post-M.D. Training

Legal Status
(Residents Only - Fellows Not Included)
6. Faculty of Medicine Providing Post-M.D. Training

M.D. Degree Awarded in the Province Providing Post-M.D. Training
(Current Year Canadian M.D. Graduates Only)

TABLEAUX COUVRANT LA PÉRIODE DE 1988 À 1995

1. Domaine de formation post-M.D.

Source de financement pour la formation post-M.D.
2. Province où est située la faculté de médecine offrant la formation post-M.D.

Source de financement pour la formation post-M.D
- 2i. Province où est située la faculté de médecine offrant la formation post-M.D.

Source de financement pour la formation post-M.D
(les "fellows" et les stagiaires avec permis de travail ne sont pas compris)
3. Domaine de formation post-M.D.

Sexe
4. Domaine de formation post-M.D.

Endroit où est située l'université qui a décerné le diplôme M.D.
5. Faculté de médecine offrant la formation post-M.D.

Statut légal
(résidents seulement - les "fellows" ne sont pas compris)
6. Faculté de médecine offrant la formation post-M.D.

Diplôme M.D. décerné dans la province offrant la formation post-M.D.
(Diplômés des facultés canadiennes de l'année en cours seulement)

CAPER

Système informatisé sur les stagiaires post-M.D. en formation clinique

Stagiaires post-M.D. sous la direction des facultés de médecine canadiennes en date du 1er novembre de chaque année

Canadian Post-M.D. Education Registry

Post-M.D. trainees under the supervision of the Canadian Faculties of Medicine November 1 of each year

Physicians Who Exited Post-M.D. Training in 1993 (Graduates of Canadian Faculties of Medicine)

1. Faculty of Medicine Which Awarded the
M.D. Degree
 X
Practice Region, July 1995

1i. Faculty of Medicine Providing the Last
Year of Post-M.D. Training
 X
Practice Region, July 1995

1ii. Faculty of Medicine Providing the Last
Year of Post-M.D. Training
 X
Practice Province, July 1995

Physicians Who Exited Post-M.D. Training in 1993 in the Same Province Which Had Awarded the M.D. Degree (Graduates of Canadian Faculties of Medicine)

1iii. Faculty of Medicine Providing the Last
Year of Post-M.D. Training
 X
Practice Region, July 1995

DONNÉES SUPPLÉMENTAIRES

(Renseignements provenant de sources autres que le recensement annuel de CAPER)

Médecins ayant terminé leur formation post-M.D. en 1993 (diplômés des facultés de médecine canadiennes)

1. Faculté de médecine qui a décerné le
diplôme M.D.
 X
Région où exerce le médecin,
juillet 1995

1i. Faculté de médecine offrant la dernière
année de formation post-M.D.
 X
Région où exerce le médecin,
juillet 1995

1ii. Faculté de médecine offrant la dernière
année de formation post-M.D.
 X
Province où exerce le médecin,
juillet 1995

Médecins ayant terminé leur formation post-M.D. en 1993 dans la même province que la faculté de médecine ayant décerné leur diplôme (diplômés des facultés de médecine canadiennes)

1iii. Faculté de médecine offrant la dernière
année de formation post-M.D.
 X
Région où exerce le médecin,
juillet 1995
