Welcome to the 24th edition of the CAPER Annual Census of Post-M.D. *Trainees*. Today's postgraduate medical residents are completing the final stage of their initial medical training. Soon they will serve our communities as family physicians, surgeons, pediatricians, internists, anesthetists, pathologists, and the many other medical specialists who care for Canadians. The CAPER Annual Census report is Canada's definitive source of information on the numbers and types of physicians being trained to meet our societal needs.

The Annual Census report is made possible through a longstanding partnership between governments, faculties of medicine and professional medical organizations. The federal, provincial and territorial governments listed on the inside of the front cover guide and financially support CAPER. Guidance and financial support are also given by the Association of Faculties of Medicine of Canada, Canadian Association of Internes and Residents, Canadian Medical Association, College of Family Physicians of Canada, Medical Council of Canada and Royal College of Physicians and Surgeons of Canada. CAPER is sincerely grateful for the stewardship and financial support of its contributing members.

Many individuals also need to be thanked for the time and effort they give to CAPER. Members of CAPERs Policy and Executive Committees provide guidance through their participation in annual meetings.

A sincere thank you is extended to CAPER data providers. Associate Deans, Managers and other staff in Canada's postgraduate medical education offices submit and verify CAPER data files. The Ontario Physician Human Resources Data Centre performs this work for all Ontario faculties of medicine. The time and effort given by data providers forms the cornerstone of the CAPER database.

Special thanks go to CAPER office staff. Ms. Hélène LeBlanc and Mr. Leslie Forward work to a very high standard preparing the Annual Census report and maintaining CAPERs day-to-day operations.

On behalf of CAPER, it is a pleasure working for our participating members and clients in managing this unique national resource.

Steve Slade

Vice President, Research and Analysis
CAPER/ORIS

Remerciements

Voici la 24^e édition du Recensement annuel des stagiaires post-M.D. de CAPER. Les résidents postdoctoraux actuels achèvent leur formation médicale initiale. Ils oeuvreront bientôt au sein de nos communautés en tant que médecins de famille, chirurgiens, pédiatres, internistes, anesthésistes, pathologistes ou comme l'un des nombreux médecins spécialistes qui fournissent des soins aux Canadiens. Le rapport du Recensement annuel de CAPER est la source définitive d'information sur la quantité et les types de médecins en formation qui s'apprêtent à répondre à nos besoins sociaux.

Le rapport du Recensement annuel est rendu possible grâce au partenariat de longue date entre les gouvernements, les facultés de médecine et les organisations médicales professionnelles. Les gouvernements de niveau fédéral, provincial et territorial dont le nom se trouve à l'endos de la couverture avant agissent à titre de guide et de subventionneur pour CAPER. Nous profitons également d'une orientation et d'une aide financière de la part de l'Association des facultés de médecine du Canada, de l'Association canadienne des médecins résidents, du Conseil médical du Canada, du Collège des médecins de famille du Canada et du Collège royal des médecins et chirurgiens du Canada. CAPER reconnaît en toute sincérité le soutien et l'aide financière de ses membres adhérents.

Il faut également souligner le temps et l'effort que plusieurs personnes consacrent à CAPER. Les membres du comité des politiques et du conseil exécutif de CAPER agissent à titre de guide en participant aux réunions annuelles.

Un merci sincère aux fournisseurs de données de CAPER. Les doyens associés, les directeurs et les autres membres du personnel des bureaux de formation médicale postdoctorale à l'échelle du Canada soumettent et vérifient des fichiers de données de CAPER. L'*Ontario Physician Human Resources Data Centre* s'attelle à cette tâche dans l'ensemble des facultés de médecine de l'Ontario. Le temps et l'effort qu'offrent les fournisseurs de données représentent la pierre angulaire de la base de données de CAPER.

Un merci spécial au personnel administratif de CAPER. M^{me} Hélène LeBlanc et M. Leslie Forward se conforment à des normes de travail très rigoureuses pour préparer le rapport du Recensement annuel et veiller aux activités quotidiennes de CAPER.

Sachez que CAPER se fait un plaisir de collaborer avec ses membres actifs et ses clients pour gérer notre ressource nationale unique.

Steve Slade

3. Quick Facts: Concerning Non-Ministry Funded Post-M.D. Trainees 2001-2002 to 2010-2011	21	3. Points saillants : concernant les stagiaires non subventionnés par les fonds ministériels habituels 2001-2002 à 2010-2011
Data from the 2010–2011 CAPER Annual Census of Post-M.D. Trainees	24	Données Provenant du Recensement Annuel des Stagiaires Post-M.D. 2010–2011

A. Faculty of Medicine Providing Post-M.D. Training	25	Faculté de Médecine Offrant la Formation Post-M.D.
by Field of Post-M.D. Training (Table A-1)	26	par Domaine de formation post-M.D. (tableau A-1)
by Field of Post-M.D. Training (regular ministry funded trainees only) (Table A-1i)	28	par Domaine de formation post-M.D. (seulement les stagiaires subventionnés par les fonds ministériels habituels) (tableau A-1i)
by Field of Post-M.D. Training (residents only – fellows not included) (Table A-1ii)	30	par Domaine de formation post-M.D. (résidents seulement – les « fellows » ne sont pas compris) (tableau A-1ii)
by Field of Post-M.D. Training (visa trainees not included) (Table A-1iii)	32	par Domaine de formation post-M.D. (les stagiaires avec permis de travail ne sont pas compris) (tableau A-1iii)
by Rank (Table A-2)	34	par Rang (tableau A-2)
by Rank (regular ministry funded trainees only) (Table A-2i)	34	par Rang (seulement les stagiaires subventionnés par les fonds ministériels habituels) (tableau A-2i)
by Gender (visa trainees not included) (Table A-3)	35	par Sexe (les stagiaires avec permis de travail ne sont pas compris) (tableau A-3)
by Province of Location of University Which Awarded the M.D. Degree (Table A-4)	36	par Province où est située l'université qui a décerné le diplôme M.D. (tableau A-4)
by Province of Location of University Which Awarded the M.D. Degree (visa trainees not included) (Table A-4i)	37	par Province où est située l'université qui a décerné le diplôme M.D. (les stagiaires avec permis de travail ne sont pas compris) (tableau A-4i)
Clinician Investigator Program: Field of Post-M.D. Training by Faculty of Medicine Providing Post-M.D. Training (Table A-5)	39	Programme de formation de cliniciens-chercheurs: Domaine de formation post-M.D. par Faculté de médecine offrant la formation post-M.D. (tableau A-5)

B. Field of Post-M.D. Training	41	Domaine de Formation Post-M.D.
by Rank (Table B-1)	42	par Rang (tableau B-1)
by Rank (regular ministry funded trainees only) (Table B-1i)	44	par Rang (seulement les stagiaires subventionnés par les fonds ministériels habituels) (tableau B-1i)
by Gender (visa trainees not included) (Table I-3)	99	par Sexe (les stagiaires avec permis de travail ne sont pas compris) (tableau I-3)

by Source of Funding for Post-M.D. Training (Table I-1)	90	par Source de financement pour la formation post-M.D. (tableau I-1)
by Province of Location of Faculty of Medicine Providing Post-M.D. Training (Table A-1)	26	par Province où est située la faculté de médecine offrant la formation post-M.D. (tableau A-1)
by Province of Location of Faculty of Medicine Providing Post-M.D. Training (regular ministry funded trainees only) (Table A-1i)	28	par Province où est située la faculté de médecine offrant la formation post-M.D. (seulement les stagiaires subventionnés par les fonds ministériels habituels) (tableau A-1i)
by Province of Location of Faculty of Medicine Providing Post-M.D. Training (residents only – fellows not included) (Table A-1ii)	30	par Province où est située la faculté de médecine offrant la formation post-M.D. (résidents seulement – les “fellows” ne sont pas compris) (tableau A-1ii)
by Location of University Which Awarded the M.D. Degree (Table I-4)	105	par Lieu où est située l'université qui a décerné le diplôme M.D. (tableau I-4)
by Legal Status (Table B-2)	46	par Statut légal (tableau B-2)

C. M.D. Degree	49	Diplôme M.D.
Year M.D. Degree Received by Location of University Which Awarded the M.D. Degree (Table C-1)	50	Année d'obtention du doctorat en médecine par Lieu de l'université ayant décerné le doctorat en médecine (tableau C-1)
International Medical Graduates: Country Where M.D. Degree Was Awarded by Legal Status and Rank (Table C-2)	51	Diplômés des facultés de médecine étrangères : Pays de l'université ayant décerné le doctorat en médecine par Statut légal et rang (tableau C-2)
Field of Post-M.D. Training by Location of University Which Awarded the M.D. Degree (Table I-4)	105	Domaine de formation post-M.D. par Lieu de l'université ayant décerné le doctorat en médecine (tableau I-4)
Faculty of Medicine Providing Post-M.D. Training by Location of University Which Awarded the M.D. Degree (Table A-4)	36	Faculté de médecine offrant la formation post-M.D. par Lieu de l'université ayant décerné le doctorat en médecine (tableau A-4)
Faculty of Medicine Providing Post-M.D. Training by Location of University Which Awarded the M.D. Degree (visa trainees not included) (Table A-4i)	37	Faculté de médecine offrant la formation post-M.D. par Lieu de l'université ayant décerné le doctorat en médecine (stagiaires avec permis de travail ne sont pas compris) (tableau A-4i)
Rank by Legal Status Within Location of University Which Awarded the M.D. Degree (Table F-1)	58	Rang par Statut légal dans les limites du lieu de l'université ayant décerné le doctorat en médecine (tableau F-1)
Source of Funding for Post-M.D. Training by Legal Status Within Location of University Which Awarded the M.D. Degree (Table D-1)	54	Source de financement de la formation post-M.D. par Statut légal dans les limites du lieu de l'université ayant décerné le doctorat en médecine (tableau D-1)

D. Source of Funding for Post-M.D. Training	53	Source de Financement pour la Formation Post-M.D.
by Rank (Tables A-2, A-2i)	34	par Rang (tableaux A-2, A-2i)
by Province of Location of Faculty of Medicine Providing Post-M.D. Training (Table I-2)	95	par Province où est située la faculté de médecine offrant la formation post-M.D. (tableau I-2)
by Field of Post-M.D. Training (Table I-1)	90	par Domaine de formation post-M.D. (tableau I-1)
by Legal Status Within Location of University Which Awarded the M.D. Degree (Table D-1)	54	par Statut légal dans les limites du lieu de l'université qui a décerné le diplôme M.D. (tableau D-1)
by Legal Status Within Location of University Which Awarded the M.D. Degree (residents only – fellows not included) (Table D-1i)	54	par Statut légal dans les limites du lieu de l'université qui a décerné le diplôme M.D. (résidents seulement – les “fellows” ne sont pas compris) (tableau D-1i)

E. Gender	55	Sexe
by Faculty of Medicine Providing Post-M.D. Training (visa trainees not included) (Table A-3)	35	par Faculté de médecine offrant la formation post-M.D. (les stagiaires avec permis de travail ne sont pas compris) (tableau A-3)
by Field of Post-M.D. Training (visa trainees not included) (Table I-3)	99	par Domaine de formation post-M.D. (les stagiaires avec permis de travail ne sont pas compris) (tableau I-3)

by Field of Post-M.D. Training (first year trainees only – visa trainees not included) (Table G-6)	70	par Domaine de formation post-M.D. (stagiaires en première année post-M.D. seulement – les stagiaires avec permis de travail ne sont pas compris) (tableau G-6)
by Field of Post-M.D. Training (practice entry cohort) (Table H-7)	83	par Domaine de formation post-M.D. (cohorte entrant en exercice) (tableau H-7)
E.i. Age	55	Âge
Field of Post-M.D. Training by Average Age (practice entry cohort) (Table H-6)	82	Domaine de formation post-M.D. par Âge moyen (cohorte entrant en exercice) (tableau H-6)
F. Legal Status	57	Statut Légal
by Field of Post-M.D. Training (Table B-2)	46	par Domaine de formation post-M.D. (tableau B-2)
Within Location of University Which Awarded the M.D. Degree by Rank (Table F-1)	58	Dans les limites du lieu de l'université qui a décerné le diplôme M.D. par Rang (tableau F-1)
Within Location of University Which Awarded the M.D. Degree by Source of Funding for Post-M.D. Training (Table D-1)	54	Dans les limites du lieu de l'université qui a décerné le diplôme M.D. par Source de financement pour la formation post-M.D. (tableau D-1)
by Province of Location of Faculty of Medicine Providing Post-M.D. Training (Table F-2)	59	par Province où est située la faculté de médecine offrant la formation post-M.D. (tableau F-2)
by Province of Location of Faculty of Medicine Providing Post-M.D. Training (regular ministry funded trainees only) (Table F-2i)	59	par Province où est située la faculté de médecine offrant la formation post-M.D. (seulement les stagiaires subventionnés par les fonds ministériels habituels) (tableau F-2i)
Field of Post-M.D. Training by Province of Location of Faculty of Medicine Providing Post-M.D. Training (visa trainees only) (Table F-3)	60	Domaine de formation post-M.D. par Province où est située la faculté de médecine offrant la formation post-M.D. (seulement les stagiaires avec permis de travail) (tableau F-3)
by Field of Training (first year trainees only, 2006-2010) (Table I-9)	124	Domaine de formation post-M.D. (stagiaires en première année seulement – 2006-2010) (tableau I-9)
G. First Year Trainees	63	Stagiaires en Première Année Post-M.D.
Field of Post-M.D. Training by Faculty of Medicine Providing Post-M.D. Training (first year trainees – visa trainees not included) (Table G-1)	65	Domaine de formation post-M.D. par Faculté de médecine offrant la formation post-M.D. (stagiaires en première année – les stagiaires avec permis de travail ne sont pas compris) (tableau G-1)
Table 1 Summary (Table G-2)	66	Sommaire – tableau 1 (tableau G-2)
Comparison of First Year Trainees and R 1 Trainees (Table G-3)	67	Comparaison entre les stagiaires en première année post-M.D. et ceux au niveau R 1 (tableau G-3)
Province of Location of Faculty of Medicine Providing Post-M.D. Training by Source of Funding for Post-M.D. Training (first year trainees only) (Table G-4)	68	Province où est située la faculté de médecine offrant la formation post-M.D. par Source de financement pour la formation post-M.D. (stagiaires en première année post-M.D. seulement) (tableau G-4)
Legal Status by Location of University Which Awarded the M.D. Degree (first year trainees only) (Table G-5)	68	Statut légal par Lieu où est située l'université qui a décerné le diplôme M.D. (stagiaires en première année post-M.D. seulement) (tableau G-5)
Field of Post-M.D. Training by Gender (first year trainees only – visa trainees not included) (Table G-6)	70	Domaine de formation post-M.D. par Sexe (stagiaires en première année post-M.D. seulement – les stagiaires avec permis de travail ne sont pas compris) (tableau G-6)
Field of Training (first year trainees only, 2006-2010) by Legal Status (Table I-9)	124	Domaine de formation post-M.D. par Statut légal (stagiaires en première année post-M.D. seulement, 2006-2010) (tableau I-9)
H. Estimated Practice Entry Cohort	71	La Taille Approximative de la Cohorte qui Entre en Exercice
Field of Post-M.D. Training of New Entry and Re-entry Groups – Graduates of Canadian Faculties of Medicine WhoExited at a Rank Level Consistent with Completion of Training Between Nov. 1, 2009 and Nov. 1, 2010 (Table H-1)	74	Domaine de formation post-M.D. des groupes de personnes admises et ré-admises – Diplômés des facultés de médecine canadiennes ayant obtenu un diplôme conformément à l'achèvement de la formation entre le 1 ^{er} novembre 2009 et le 1 ^{er} novembre 2010 (tableau H-1)

International Medical Graduates Who Exited at a Rank Level Consistent with Completion of Training Between Nov. 1, 2009 and Nov. 1, 2010 (Table H-2)	76	Les diplômés des facultés de médecine étrangères ayant obtenu un diplôme conformément à l'achèvement de la formation entre le 1 ^{er} novembre 2009 et le 1 ^{er} novembre 2010 (tableau H-2)
Summary Table (Table H-3)	78	Sommaire (tableau H-3)
Field of Post-M.D. Training by Faculty of Medicine Providing Post-M.D. Training (2010 estimated practice entry cohort) (Table H-4)	79	Domaine de formation post-M.D. par Faculté de médecine offrant la formation post-M.D. (la taille approximative de la cohorte qui entre en exercice en 2010) (tableau H-4)
Summary Field of Post-M.D. Training by Province of Location of Faculty of Medicine Providing Post-M.D. Training (2010 estimated practice entry cohort) (Table H-5)	81	Sommaire du domaine de formation post-M.D. par Province où est située la faculté de médecine offrant la formation post-M.D. (la taille approximative de la cohorte qui entre en exercice en 2010) (tableau H-5)
Field of Post-M.D. Training by Average Age (2010 estimated practice entry cohort) (Table H-6)	82	Domaine de formation post-M.D. par Âge moyen (la taille approximative de la cohorte qui entre en exercice en 2010) (tableau H-6)
Field of Post-M.D. Training by Location of University Which Awarded the M.D. Degree (estimated practice entry cohort) (Table I-7)	114	Domaine de formation post-M.D. par Lieu où est située l'université qui a décerné le diplôme M.D. (la taille approximative de la cohorte qui entre en exercice) (tableau I-7)
Field of Post-M.D. Training by Gender (practice entry cohort) (Table H-7)	83	Domaine de formation post-M.D. par Sexe (cohorte qui entre en exercice) (tableau H-7)
Field of Post-M.D. Training by Faculty of Medicine Providing Post-M.D. Training (return from practice cohort) (Table H-8)	85	Domaine de formation post-M.D. par Faculté de médecine offrant la formation post-M.D. (retour à pratique) (tableau H-8)
Year of Exit from Post-M.D. Training (1989-2010) by Field of Post-M.D. Training (graduates of Canadian faculties of medicine) (Table H-9)	87	La dernière année de formation post-M.D. (1989-2010) par Domaine de formation post-M.D. (diplômés des facultés de médecine canadiennes) (tableau H-9)
Year of Exit from Post-M.D. Training (1989-2010) by Field of Post-M.D. Training (Canadian citizens/ permanent residents of Canada) (Table H-9i)	88	La dernière année de formation post-M.D. (1989-2010) par Domaine de formation post-M.D. (citoyens canadiens/résidents permanents au Canada) (tableau H-9i)

I. Tables Covering the Time Period From 2006-2007 to 2010-2011	89	Tableaux Couvrant la Période de 2006-2007 à 2010-2011
Field of Post-M.D. Training by Source of Funding for Post-M.D. Training (Table I-1)	90	Domaine de formation post-M.D. par Source de financement pour la formation post-M.D. (tableau I-1)
Province of Location of Faculty of Medicine Providing Post-M.D. Training by Source of Funding for Post-M.D. Training (Table I-2)	95	Province où est située la faculté de médecine offrant la formation post-M.D. par Source de financement pour la formation post-M.D. (tableau I-2)
Province of Location of Faculty of Medicine Providing Post-M.D. Training by Source of Funding for Post-M.D. Training (fellows and visa trainees not included) (Table I-2i)	97	Province où est située la faculté de médecine offrant la formation post-M.D. par Source de financement pour la formation post-M.D. (les "fellows" et les stagiaires avec permis de travail ne sont pas compris) (tableau I-2i)
Field of Post-M.D. Training by Gender (visa trainees not included) (Table I-3)	99	Domaine de formation post-M.D. par Sexe (les stagiaires avec permis de travail ne sont pas compris) (tableau I-3)
Field of Post-M.D. Training by Location of University Which Awarded the M.D. Degree (Table I-4)	105	Domaine de formation post-M.D. par Lieu où est située l'université qui a décerné le diplôme M.D. (tableau I-4)
Faculty of Medicine Providing Post-M.D. Training by Legal Status (residents only – fellows not included) (Table I-5)	110	Faculté de médecine offrant la formation post-M.D. par Statut légal (résidents seulement – les "fellows" ne sont pas compris) (tableau I-5)
Faculty of Medicine Providing Post-M.D. Training by M.D. Degree Awarded in the Province Providing Post-M.D. Training (current year Canadian M.D. graduates only) (Table I-6)	112	Faculté de médecine offrant la formation post-M.D. par Diplôme M.D. décerné dans la province offrant la formation post-M.D. (diplômés des facultés canadiennes de l'année en cours seulement) (tableau I-6)
Field of Post-M.D. Training by Location of University Which Awarded the M.D. Degree (estimated practice entry cohort) (Table I-7)	114	Domaine de formation post-M.D. par Lieu où est située l'université qui a décerné le diplôme M.D. (la taille approximative de la cohorte qui entre en exercice) (tableau I-7)
Field of Post-M.D. Training by Gender (estimated practice entry cohort) (Table I-8)	119	Domaine de formation post-M.D. par Sexe (la taille approximative de la cohorte qui entre en exercice) (tableau I-8)

First Year Trainees, Field of Training by Legal Status (Canadian citizens/permanent residents vs. visa trainees) (Table I-9)	124	Stagiaires en première année post-M.D., domaine de formation post-M.D. par Statut légal (citoyens canadiens/résidents permanents vs les stagiaires avec permis de travail) (tableau I-9)
First Year Trainees: Proportion of First Year Trainees in Each Field of Training (Canadian citizens/permanent residents only) (Table I-10)	126	Stagiaires en première année post-M.D.: Proportion de stagiaires en première année post-M.D. dans chaque domaine de formation post-M.D. (citoyens canadiens/résidents permanents seulement) (tableau I-10)
J. Supplementary Data (Includes information from CAPER as well as other data sources)	129	Données Supplémentaires (Renseignements provenant de CAPER ainsi que d'autres sources de données)

Use the CAPER database to answer these frequently asked questions:

Utiliser la base de données du CAPER pour trouver ces renseignements sur des questions souvent posées :

1. Where do I find a summary of changes in the post-M.D. training population over the last 10 years?	Où puis-je trouver un résumé des changements qu'ont connus les stagiaires post-M. D. en formation clinique, au cours des dix dernières années ?	Quick Facts En bref!	pages 11-23
2. How many ministry funded residents are in a specific specialty at each faculty?	Combien de stagiaires ayant droit à une bourse ministérielle trouve-t-on, pour une spécialité donnée, dans chaque faculté ?	Table A-1i Tableau A-1i	page 28
3. How many ministry funded residents are there at each rank level?	Combien de médecins résidents bénéficiant d'une bourse ministérielle trouve-t-on, à chaque niveau de formation?	Table B-1i Tableau B-1i	page 44
4. How many new residents entered training in each specialty this year?	Pour chaque spécialité, quel est le nombre de médecins qui ont commencé leur résidence cette année?	Table G-1 Tableau G-1	page 65
5. What is the gender of residents entering each specialty?	Pour chaque spécialité, de quel sexe sont les médecins qui commencent leur résidence?	Table G-6 Tableau G-6	page 70
6. How many new physicians completed and exited from Canadian residency training?	Combien de nouveaux médecins ont fait toute leur résidence en suivant le programme canadien de formation clinique?	Table H-4 Tableau H-4	page 79
7. How old are Canada's new physicians when they finish training?	À quel âge les nouveaux médecins terminent-ils le programme canadien de formation clinique?	Table H-6 Tableau H-6	page 82
8. What is the gender of the new physicians who completed and exited from Canadian residency training?	De quel sexe sont les nouveaux médecins qui ont fait toute leur résidence en suivant le programme canadien de formation clinique?	Table H-7 Tableau H-7	page 83
9. Where do the M.D. graduates of my faculty (province) eventually go to practise medicine?	Où les diplômés en médecine (M.D.) de ma faculté (province) entrent-ils généralement en pratique?	Table J-2 Tableau J-2	page 132

Individual Specialty Tables Tableaux individuels des spécialités	

Background Historique

CAPER (the Canadian Post-M.D. Education Registry) was established in 1986 through the co-operation of national medical organizations with an interest in the post-M.D. clinical education of physicians in Canada. The Association of Faculties of Medicine of Canada, the Canadian Association of Internes and Residents, the Canadian Medical Association, the College of Family Physicians of Canada, the Medical Council of Canada, Health Canada, and the Royal College of Physicians and Surgeons of Canada, have provided both expertise and financial support for the development and operation of CAPER. Provincial and territorial ministries of Health have contributed to CAPER since 1992.

CAPER is incorporated within the by-laws of The Association of Faculties of Medicine of Canada with the mandate to provide accurate information which may be used for medical manpower planning on a national basis. To accomplish this task, an individual longitudinal file is maintained containing socio-demographic information and details of the current and past training programs of each resident or fellow under the supervision of the Canadian Faculties of Medicine on November 1 of each year. The data in this document are derived from information submitted for November 1, 2010 by the office of Postgraduate Medical Education at each of the Canadian Faculties of Medicine.

CAPER (Système informatisé sur les stagiaires post-M.D. en formation clinique) a été établi en 1986 avec la coopération de diverses organisations médicales du Canada intéressées par la formation clinique post-M.D. au Canada. L'Association des facultés de médecine du Canada, l'Association canadienne des médecins résidents, l'Association médicale canadienne, le Collège des médecins de famille du Canada, Le Conseil médical du Canada, Santé Canada, ainsi que le Collège royal des médecins et chirurgiens du Canada ont contribué au développement et au bon fonctionnement de CAPER en partageant leurs connaissances et en lui apportant un soutien financier. Les Ministères de la Santé des provinces et des territoires ont contribué depuis 1992.

CAPER est constitué en société dans le cadre des statuts de L'Association des facultés de médecine du Canada avec pour mandat de fournir des renseignements précis pouvant être utilisés pour fins de planification de la main-d'œuvre médicale au niveau national. Pour ce faire, un fichier longitudinal est tenu à jour contenant l'information pertinente à chaque résident ou moniteur clinique (fellow) inscrit aux différentes facultés de médecine canadiennes en date du 1^{er} novembre de chaque année. L'information socio-démographique et les détails du programme de formation de cette année et des années passées y sont inclus. Les données de ce document reflètent l'information soumise au 1^{er} novembre 2010 par le personnel administratif des bureaux de formation médicale postdoctorale des facultés de médecine canadiennes.

The Reporting Process

Méthode de déclaration

The individual records of all trainees under the supervision of each Canadian faculty of medicine are provided to CAPER by the postgraduate medical education office of the respective faculty. All post-M.D. trainees (residents and fellows) in training positions on November 1 of the current academic year are reported to CAPER. The following information is included in the yearly report:

- the faculty of medicine supervising post-M.D. training
- socio-demographic information
- previous medical education and certification, and
- field of current post-M.D. training

This information is collected by all faculties at the time of registration for post-M.D. training each year and is sent to CAPER, in coded form. Information sent to CAPER is checked for missing or incorrect items. Reports are then sent back to the appropriate postgraduate medical education office of the Canadian faculties of medicine for further verification of the information on their trainees.

Data Privacy

At the Canadian Post-M.D. Education Registry (CAPER), we take physician privacy very seriously. It is a long-established policy of CAPER and the Association of Faculties of Medicine of Canada (AFMC), of which Association CAPER is a component division, to deal with all physician information in a sensitive manner, in order to ensure that our collections, uses, disclosures, retention and disposal of physician information are carried out in accordance with best privacy practices.

The full CAPER Privacy Policy is on the website: caper.ca.

Le bureau de la formation médicale postdoctorale de chaque faculté de médecine canadienne fournit à CAPER les dossiers de tous les stagiaires qui relèvent de la faculté. Sont déclarés à CAPER tous les stagiaires post-M.D. (résidents et moniteurs cliniques) qui occupent un poste de formation le 1^{er} novembre de l'année universitaire en cours. La déclaration annuelle comprend les renseignements suivants :

- la faculté de médecine qui encadre la formation post-M.D.,
- des données sociodémographiques,
- la formation médicale antérieure et les titres de compétence,
- le domaine de la formation post-M.D. en cours

Ces renseignements sont recueillis chaque année par toutes les facultés lors des inscriptions aux programmes de formation post-M.D., puis transmis à CAPER sous forme chiffrée. CAPER les vérifie pour déceler les erreurs ou omissions, puis renvoie les déclarations au bureau de la formation médicale postdoctorale de la faculté de médecine en question. Les renseignements sur les stagiaires font alors l'objet d'une nouvelle vérification.

Confidentialité des données

Le Système informatisé sur les stagiaires post-M.D. en formation clinique (CAPER) prend très au sérieux la confidentialité des renseignements concernant les médecins. CAPER et l'Association des facultés de médecine du Canada (AFMC), dont CAPER est une division, s'emploient de longue date à appliquer une politique des plus à jour sur la protection des renseignements personnels concernant les médecins, de façon à ce que les activités de collecte, d'utilisation, de divulgation, de conservation et d'élimination desdits renseignements respectent les règles de l'art en la matière.

La confidentialité des données de CAPER se trouve au complet sur le site Web : caper.ca.

How to Access the CAPER Data Tables

Utilisation de la banque de données de CAPER

The CAPER data tables are available on the CAPER website www.caper.ca.

A hard copy of *CAPER Annual Census of Post-M.D. Trainees* is available upon request. Be sure to use the website to access the information you need. The *CAPER Annual Census of Post-M.D. Trainees*, the *CAPER Provincial Reports*, and the *CAPER Individual Specialty Tables* can be found at www.caper.ca.

The CAPER database has been designed to serve as an information resource for physician workforce planning on a national and provincial or regional basis in Canada. Information is held in an individual longitudinal format to permit the study of the flow of trainees through the post-M.D. training system. Although information permitting the identification of individuals is not released from CAPER, group data tabulations and statistics will be prepared in response to requests. **Preparation will be on a cost-recovery basis.**

Data requests made to CAPER are welcome.

Les tableaux de données de CAPER sont disponibles sur le site Web à www.caper.ca.

L'*Annuaire de recensement de CAPER des stagiaires post-M. D. en formation clinique* est disponible sur demande. Veuillez désormais utiliser le site Web pour obtenir des informations. Les *Rapports provinciaux sur les stagiaires post-M. D. en formation clinique*, ainsi que les *Tableaux individuels des spécialités* sont disponibles à www.caper.ca.

La base de données de CAPER fut conçue comme source d'information pour la planification de la main d'œuvre médicale au niveau national et provincial ou régional. L'information est cueillie sous forme de fiches longitudinales individuelles afin de pouvoir obtenir une vue d'ensemble des stagiaires inscrits à la formation post-M.D. Bien que CAPER ne divulgue aucun renseignement permettant d'identifier des individus, des tableaux et des statistiques de groupe peuvent être préparés sur demande. **Ce service est offert à prix coûtant.**

Toutes demandes de statistiques faites auprès de CAPER seront les bienvenues.

Definitions

Définitions

The data provided to CAPER by all the Canadian Faculties of medicine contain the information on each trainee in accordance with definitions established by CAPER. Following are these definitions and other important details pertaining to the specific variables used in the tables presented in this document.

Faculty of Medicine Providing Post-M.D. Training

The faculty of medicine supervising the post-M.D. trainee on November 1 of the report year.

Field of Post-M.D. Training

The type of non-specialized training, family medicine training, or the speciality field in which a trainee is enrolled on November 1 of the report year. Several subspecialties have multiple entry points. For example, anaesthesiology, emergency medicine, internal medicine, pediatrics and general surgery all have critical care subspecialties. As individuals transition from primary to subspecialty training, CAPER counts them within the subspecialty field that is consistent with their prior training.

Clinician Investigator Program

This is a training program accredited by the RCPSC for the purpose of providing additional research skills for physicians who are registered in one of the specialty or subspecialty training programs. Physicians reported in the A-5 table have already been included within their specialty training field in all other tables.

Note

Clinical Pharmacology

Effective November, 2010 the Specialty Committee in Clinical Pharmacology agreed to a change in nomenclature for the entire Specialty from "Clinical

Les données, fournies par toutes les facultés de médecine canadiennes à CAPER, contiennent les renseignements concernant chaque stagiaire suivant les définitions établies par CAPER. Ces définitions, ainsi que d'autres détails importants relatifs aux variables spécifiques utilisées dans les tableaux présentés dans ce document, sont énoncés ci-après.

Faculté de Médecine Offrant la Formation Post-M.D.

La faculté de médecine supervisant le stagiaire d'un programme post-M.D. au 1^{er} novembre de l'année du rapport.

Domaine de Formation Post-M.D.

Le genre de stage non spécialisé, de médecine de famille, ou la spécialité auquel le stagiaire s'est inscrit au 1^{er} novembre de l'année du rapport. Plusieurs sur-spécialités se greffent en définitive à de multiples disciplines particulières. Par exemple, l'anesthésiologie, la médecine d'urgence, la médecine interne, la pédiatrie et la chirurgie générale s'accompagnent toutes d'une sur-spécialité en soins intensifs. Alors que les personnes passent de la formation de base à la formation de sur-spécialité, CAPER inscrit ces personnes dans le domaine de sur-spécialité correspondant à leur formation antérieure.

Programme de Formation de Cliniciens-Chercheurs

Voici un programme de formation accrédité par le CRMCC, qui a pour objet d'enseigner des techniques de recherche supplémentaires aux médecins inscrits à l'un des programmes de spécialisation ou sur-spécialisation. Les médecins inscrits au tableau A-5 sont déjà inclus avec leur champ de spécialité dans tous les autres tableaux.

Note

Pharmacologie clinique

Depuis novembre 2010, le Comité de spécialité de pharmacologie clinique a approuvé la demande de changement de nomenclature pour l'ensemble de la

Pharmacology” to “Clinical Pharmacology and Toxicology”.

Community Medicine

Effective November, 2010 the Specialty Committee in Community Medicine agreed to a change in nomenclature for the entire Specialty from “Community Medicine” to “Public Health and Preventive Medicine”.

Rank

All new M.D. graduates now enter directly into either a family medicine or a specialty training program at the R 1 level.

Two years of training, the R 1 and R 2 levels, are required for certification in family medicine. R 3 level training in family medicine is provided in the accredited family medicine training programs in care of the elderly and emergency medicine as well as in other additional training programs. To meet the training requirements of the RCPSC a minimum of four to six years of training is required, depending on the specific specialty in which certification is sought.

A trainee progresses through the rank levels in the following sequence:

- R 1 (Family medicine or specialty training)
- R 2
- R 3
- R 4
- R 5
- R 6
- R 7

The following details concerning the ranking system in specific provinces are to be noted:

Maritime Provinces

(*Physicians training at Dalhousie University*)

Physicians in the first year of a program are ranked at the R 1 level. Physicians designated from R 2 to R 7 by CAPER are listed according to the PGY 2 to PGY 7 levels used at Dalhousie University. Any physicians beyond the PGY 7 level are ranked according to the appropriate RCPSC training level.

spécialité de « Pharmacologie clinique » à « Pharmacologie clinique et toxicologie ».

Médecine communautaire

Depuis novembre 2010, le Comité de spécialité de médecine communautaire a approuvé la demande de changement de nomenclature pour l'ensemble de la spécialité de « Médecine communautaire » à « Santé publique et médecine préventive».

Rang

Tous les nouveaux diplômés en médecine doivent commencer maintenant leur formation postdoctorale au niveau R 1 soit par le programme de médecine de famille soit par un programme de spécialité.

Le certificat de médecine de famille est une formation de deux ans, soit les niveaux R 1 et R 2. Le niveau R 3 de médecine de famille est dispensé par les programmes agréés de médecine de famille spécialisés dans les soins aux personnes âgées, la médecine d'urgence et d'autres programmes de formation. Selon la spécialité choisie, un minimum de 4 à 6 années est nécessaire pour obtenir un certificat du CRMCC.

Un stagiaire progresse de la façon suivante:

- R 1 (médecine de famille ou spécialité)
- R 2
- R 3
- R 4
- R 5
- R 6
- R 7

Notez ci-après des détails concernant le système de classement spécifiques à certaines provinces:

Provinces maritimes

(*Les médecins en formation à l'université Dalhousie*)

Les médecins en première année d'un programme sont enregistrés au niveau R 1. Les médecins de la deuxième à la septième année post-M.D. à l'université Dalhousie sont enregistrés du niveau PGY 2 au niveau PGY 7 par CAPER. Les médecins ayant accompli la septième année post-M.D. sont enregistrés selon les niveaux de formation du CRMCC.

Ontario

The PGY 1 to PGY 7 or higher training levels in Ontario are reported as R 1 to R 7 by CAPER.

Fellows

CAPER uses the following definition of the term “fellow”: a post-M.D. trainee who is registered with the Postgraduate Medical Education Office of a university faculty of medicine and who, regardless of the source of funding, is pursuing clinical or research training which will **NOT** be evaluated by the supervising faculty for the purpose of Canadian licensure, or certification by the College of Family Physicians of Canada, the Collège des médecins du Québec or the Royal College of Physicians and Surgeons of Canada. (Trainees with appropriate prerequisite training registered in RCPSC “accreditation without certification” programs are considered as residents, not fellows.).

Location of the Faculty of Medicine That Awarded the M.D. Degree

For individuals who earned the degree in Canada, the province of location of the faculty of medicine that awarded the M.D. degree is used. Post-M.D. trainees who earned the M.D. degree outside Canada are classified as such.

Source of Funding

The source of funding is the organization or government agency providing the funding for the position occupied by the trainee. Two main categories are used: “Regular Ministry Funds” and “Other Funds”. “Regular Ministry Funds” refers to funds provided by the appropriate provincial government ministry responsible for the training of residents within that province. All other funding sources are grouped as “Other Funds”. Graph I-2 identifies a subcategory of “Other Funds”. This subcategory is called “Other Provincial Government Funds” and includes such sources as ministry funds provided for complementary training by the Quebec Ministry of Health and Social Services, funds for residency training transferred from one province to another and government-funded foundations such as the Alberta Heritage Foundation.

Ontario

Les première aux septième (ou plus) années post-M.D. en Ontario sont enregistrées par CAPER sous les appellations R 1 à R 7.

Moniteurs cliniques (Fellows)

CAPER utilise la définition du terme moniteur clinique (fellow) énoncée ci-après : un stagiaire post-M.D. qui est inscrit auprès du Bureau des études médicales postdoctorales de la faculté de médecine d'une université et qui, quelque soit la source du financement, poursuit un stage clinique ou de recherche n'étant **PAS** évalué par la faculté supervisant en vue de l'obtention du permis d'exercer la médecine au Canada ou de la certification par le Collège des médecins de famille du Canada, par le Collège des médecins du Québec ou par le Collège royal des médecins et chirurgiens du Canada. (Les stagiaires possédant la formation requise et qui sont inscrits dans les programmes de “l'agrément sans le certificat” du CRMCC sont considérés comme des résidents et non comme des « fellows ».)

Lieu de la faculté de médecine qui a décerné le diplôme M.D.

Pour les individus qui ont reçu leur diplôme au Canada, la province de la faculté de médecine qui a décerné le diplôme M.D. est utilisé. Ceux qui ont reçu leur diplôme ailleurs qu'au Canada sont classifiés en tant que diplômés de facultés de médecine étrangères.

Source de financement

La source de financement est l'organisme ou l'agence gouvernementale qui fournit le financement pour la position occupée par le stagiaire. Deux grandes catégories sont utilisées: « Fonds ministériels habituels » et « Autres fonds ». Les « Fonds ministériels habituels » sont les fonds provenant des ministères des gouvernements provinciaux appropriés responsables des stages des résidents au sein de la province. Tous les autres sources de financement sont regroupés sous l'appellation « Autres fonds ». Le graphe I-2 présente une sous-catégorie de la catégorie « Autres fonds ». Cette sous-catégorie s'intitule « Autres fonds des gouvernements provinciaux » et comprend entre autres des fonds provenant du ministère de la Santé et des Services sociaux du Québec destinés à financer une formation complémentaire, des fonds de transfert d'une province à une autre pour la formation clinique, et des fonds provenant de fondations financées par les gouvernements comme l'Alberta Heritage Foundation.

Age

Age is calculated as the age of the trainee on July 1, 2010 (the age of the trainee at the beginning of the July 2010 training session).

Legal Status

Three categories are used:

Canadian Citizen / Permanent Resident

Trainee is a citizen of Canada or has been accepted as a landed immigrant and has the right to live and work in Canada.

Visa

Trainees holding a visa permitting employment in Canada temporarily as a post-M.D. trainee.

First Year Trainees

Only first-time trainees in their first year of post-M.D. training in Canada at the R 1 level are designated as “first year trainees” and are included in Section G of the book. Other trainees at the R 1 level who are re-entering training, repeating the first year, or changing specialties requiring a second year at the R 1 level are **NOT** included in Section G on first year trainees.

Trainees included in the first year trainee category according to CAPER are:

1. Graduates of Canadian medical schools at the R 1 training level who have not been previously reported to CAPER.
2. International medical graduates who are entering training at the R 1 level in Canada for the first time (visa trainees beginning a program at the R 1 level are, therefore, included in this group).

Âge

L'âge est calculé en fonction de l'âge du stagiaire au 1^{er} juillet 2010 (l'âge du stagiaire au commencement de la séance de stage de juillet 2010).

Statut légal

On utilise trois catégories :

Citoyen canadien / Résident permanent

Le stagiaire est citoyen canadien ou un individu ayant reçu le droit d'établissement au Canada et qui, en tant que tel, a le droit de vivre et travailler au Canada.

Visa

Le stagiaire est en possession d'un visa permettant d'être employé temporairement en tant que stagiaire post-M.D.

Stagiaires en première année post-M.D.

Seuls les stagiaires en première année post-M.D. au Canada pour la première fois sont regroupés dans la catégorie « stagiaires en première année post-M.D. (first year trainees) » et sont inclus dans la section G de ce document. Les autres stagiaires du niveau R 1 qui reprennent une formation, redoublent leur première année ou changent de spécialité et ont besoin de recommencer une première année au niveau R 1 **NE SONT PAS** inclus dans la section G dans la catégorie « stagiaires en première année post-M.D. ».

Selon CAPER, les stagiaires regroupés dans la catégorie « stagiaires en première année post-M.D. (first year trainees) » sont les suivants :

1. les diplômés des facultés de médecine canadiennes au niveau R 1 et n'ayant pas encore été enregistrés dans les données de CAPER.
2. les diplômés de facultés de médecine étrangères qui sont admis au niveau R 1 au Canada pour la première fois (les stagiaires possédant un visa et débutant une formation au niveau R 1 sont donc inclus dans cette catégorie).

Estimated Practice Entry Cohort

The practice entry cohort comprises the physicians who have left the post-M.D. training system each year and would be legally able to work in Canada. In order to give a picture of new entries to practice, re-entry trainees (as discussed in Section H) and visa trainees have not been included in the estimated practice entry cohort.

Gender

Visa trainees have not been included in the data pertaining to gender. This was done to give a more realistic picture of the gender mix of the cohorts of physicians who will be entering practice in Canada. The tables which have been affected are A-3, G-6 and I-3.

Completion of Training

This term is used in Section J to indicate that the group exited training at a level appropriate for completion of training (e.g. R 2 or higher for Family medicine, R 4 or higher for most RCPSC specialties and R 5 or higher for subspecialties and surgical specialties).

Palliative Medicine

Palliative medicine is a unique specialty in that it is accredited jointly by the Royal College of Physicians and Surgeons of Canada and by the College of Family Physicians of Canada. As such, it is placed in a separate category where training programs have been listed separately. Where the training programs have been grouped in the categories “family medicine”, “medical specialties”, “laboratory medicine specialties” and “surgical specialties”, palliative medicine has been included with “medical specialties”. This is because it includes too few physicians in it to form an isolated category.

Estimation de la cohorte de nouveaux praticiens

La cohorte de nouveaux praticiens contient les médecins ayant terminé leur formation post-M.D. dans l'année et qui sont en droit d'exercer au Canada. Afin de présenter un tableau des nouveaux praticiens, les stagiaires qui reprennent leur pratique (voir section H) et les stagiaires qui ont un visa d'emploi temporaire ne sont pas inclus dans cette estimation.

Sexe

Les stagiaires qui ont un visa n'ont pas été inclus dans les données relatives au sexe, de façon à présenter un tableau plus réaliste des sexes dans les cohortes de médecins commençant à exercer au Canada. Ce changement porte sur les tableaux A-3, G-6 et I-3.

Fin de formation

Ce terme est utilisé dans la section J et signifie que le groupe a atteint le niveau d'études correspondant à la fin de formation (par exemple: R 2 pour la médecine de famille, R 4 ou plus pour la plupart des spécialités du Collège royal et R 5 pour les sur-spécialités et spécialités de chirurgie).

Médecine palliative

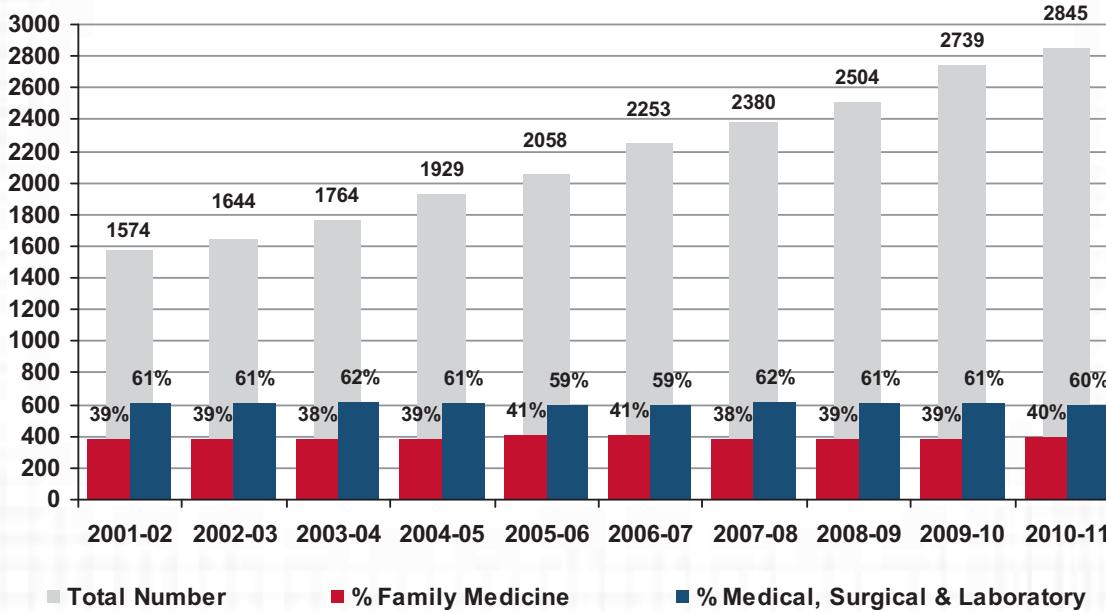

Le programme de médecine palliative se distingue par le fait qu'il a été agréé à la fois par le Collège royal des médecins et chirurgiens du Canada et par le Collège des médecins de famille du Canada. À ce titre, il a été classé dans une catégorie distincte qui énumère séparément les programmes de formation. Lorsque ces derniers sont regroupés par catégorie, soit « médecine de famille », « spécialités médicales », « spécialités de médecine de laboratoire » et « spécialités chirurgicales », le programme de médecine palliative fait partie de « spécialités médicales ». Il comprend en effet trop peu de médecins pour former une catégorie à part entière.

1. Quick Facts: Concerning Canadian Citizens/Permanent Residents

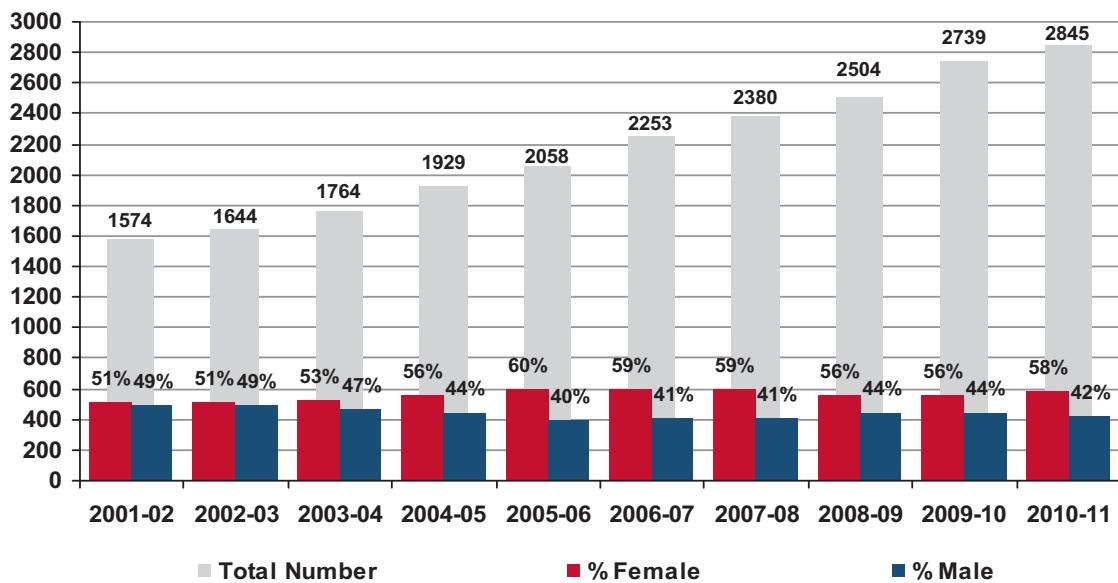

This section presents summary statistics for post-M.D. trainees who are likely to be among Canada's future physician workforce, due to their citizenship status. Included in the results are graduates of Canadian faculties of medicine as well as international medical graduates (IMGs) who are Canadian citizens or permanent residents.

- A. **First year trainees:** Since 2001-02, the number of first year post-M.D. medical trainees was lowest in 2001-02 (n=1574). Since 2001-02 the number of first year trainees has increased in each consecutive year. At 2845, the number of first year trainees in 2010-11 is 81% higher than the number in 2001-02. Among all trainees, first year trainees have increased proportionately from 22% in 2001-02 to 25% in 2009-10 followed by a small decrease to 24% in 2010/11. (*Figures 1 and 4*)
- B. **International Medical Graduates:** Among first year trainees IMGs have increased in number and as a proportion of all first year trainees up until 2009-10. In 2001/02, 9% of first year trainees were IMGs. However the number and proportion of IMGs dropped from its highest point of 467 (17%) in 2009/10 to 426 (15%) in 2010/11. (*Figure 3*)
- C. **Gender:** The proportion of medical trainees who are women has increased over the past decade; 58% of physicians entering training in 2010-11 were female, compared to 51% in 2001-02. In 2010-11, 61% of physicians exiting family medicine training programs were female and 49% of those exiting medical, surgical and laboratory programs were women. In both 2009-10 and 2010-11, females represent a decreasing proportion of trainees exiting family medicine programs. (*Figures 2, 10 and 11*)
- D. **Specialty mix:** In 2009-10, 1073 (39%) of the first year trainees were in family medicine programs and 1667 (61%) were in medical, surgical and laboratory programs. Among exiting trainees in 2009-10, 43% were completing family medicine programs and 57% were completing medical, surgical and laboratory programs. (*Figures 1 and 7*)

1. Canadian Citizens and Permanent Residents: First Year Trainees in Family Medicine and Medical/Surgical/Laboratory Training Programs

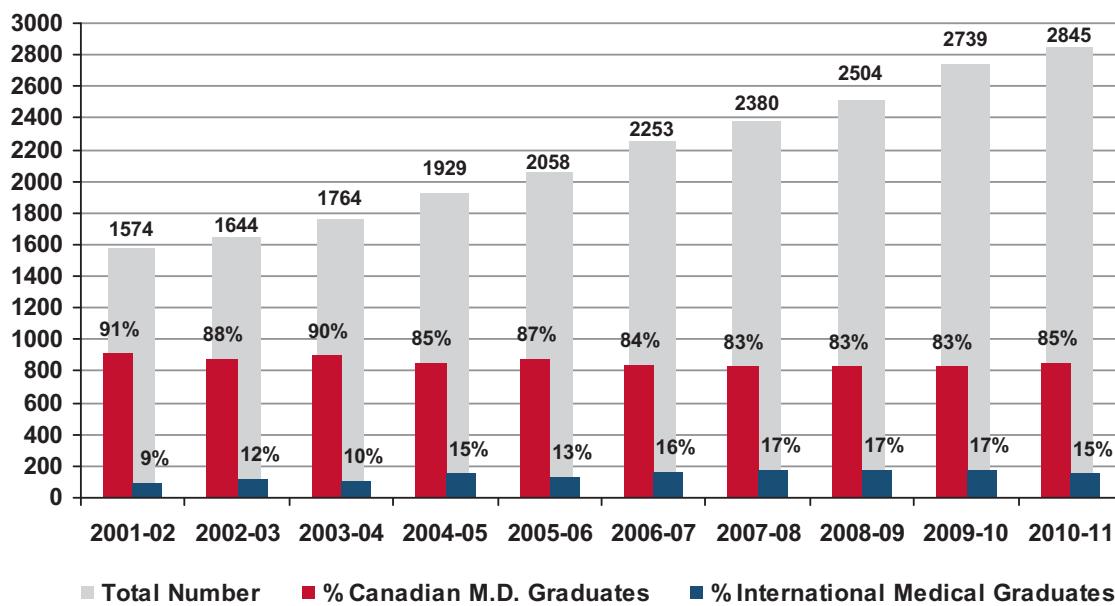

2. Canadian Citizens and Permanent Residents: First Year Trainees by Sex

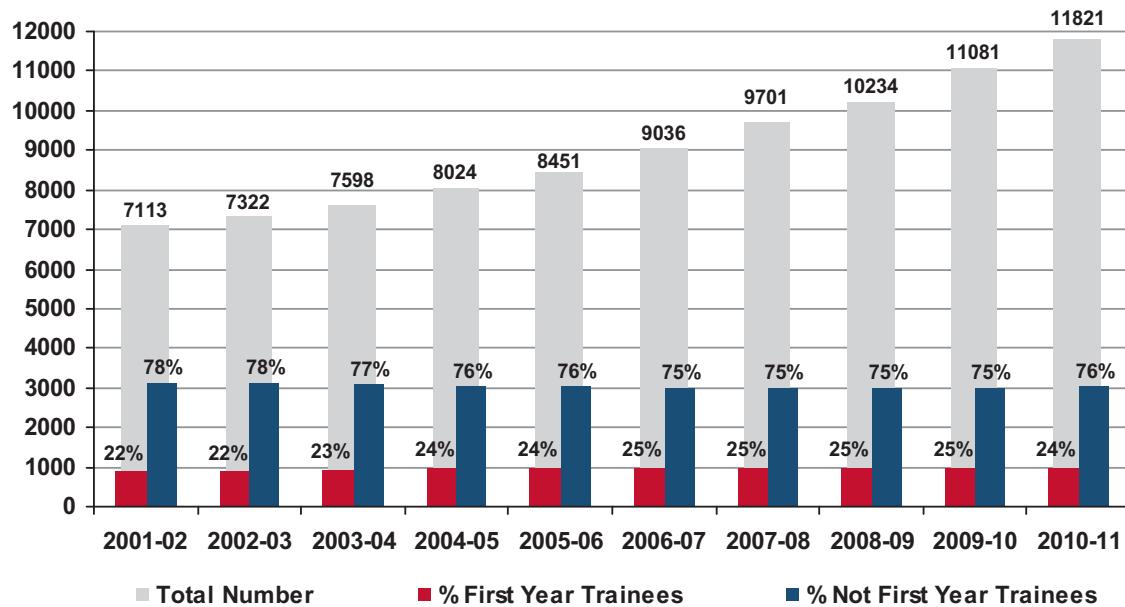

The total number of Canadian citizens/permanent residents entering training increased about 4%, from 2739 in 2009-10 to 2845 in 2010-11; 58% of entering trainees are female, compared to 56% in 2009-10.

3. Canadian Citizens and Permanent Residents: Comparison of First Year Trainees Based on Canadian M.D. Graduation and International Medical Graduation

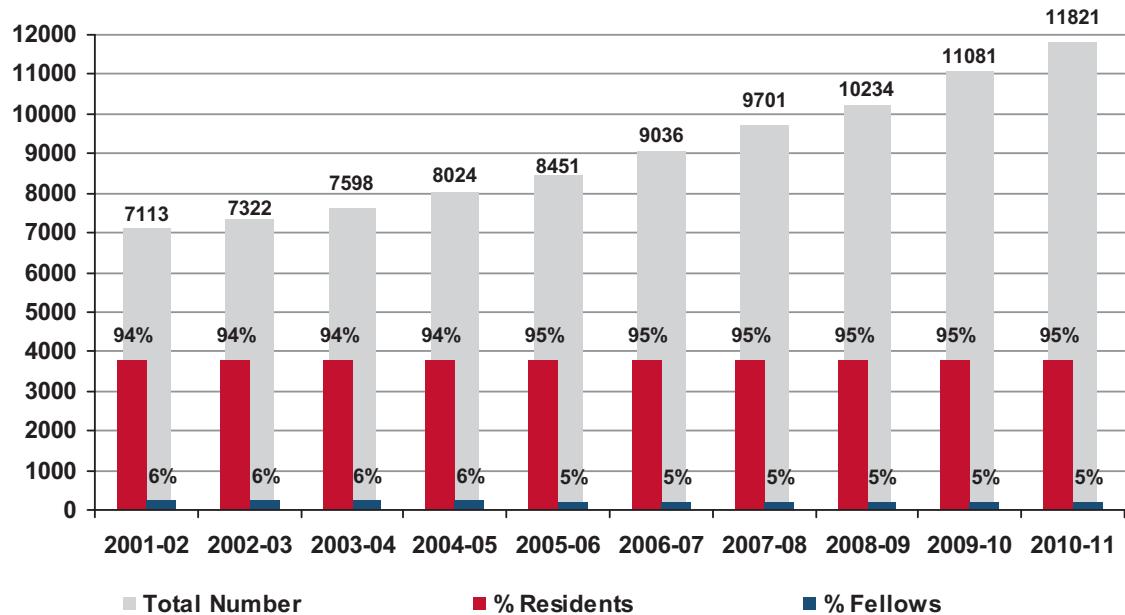

In 2010-11, the numbers of Canadian medical graduates increased while the number and proportion of international medical graduates decreased for the first time since 2005-06.

4. Canadian Citizens and Permanent Residents: First Year Post-M.D. Trainees and Non First Year Trainees

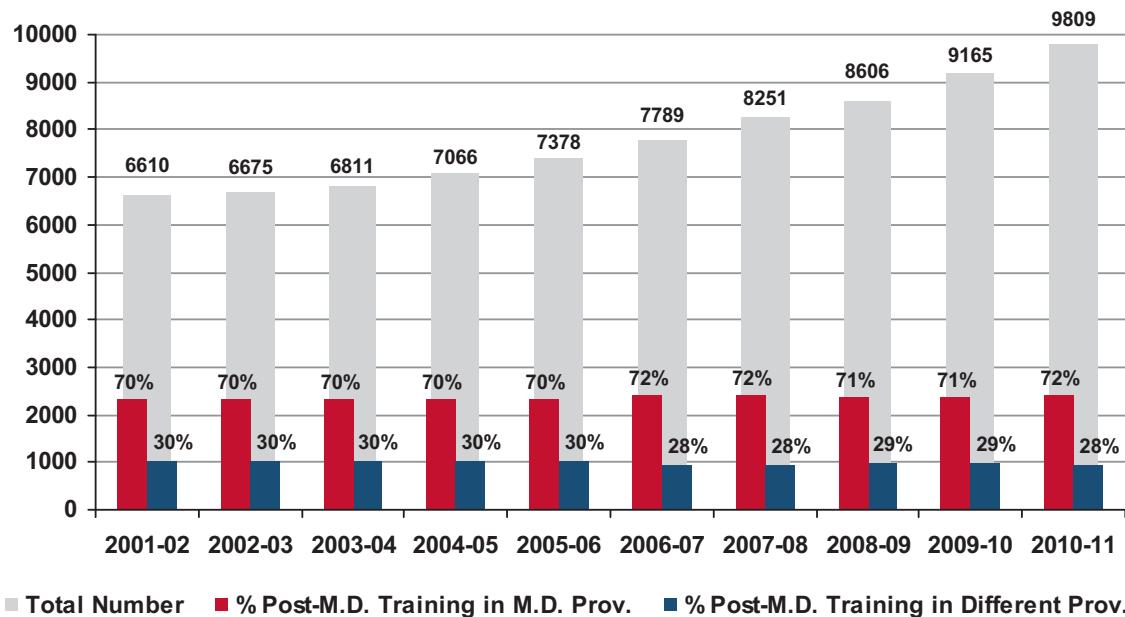

First year trainees continue to comprise approximately one-quarter of all post-M.D. trainees. Total post-M.D. enrollment has grown steadily since 2001-02. The total number of Canadian citizens/permanent residents enrolled in post-M.D. training increased 66% between 2001-02 and 2010-11.

5. Canadian Citizens and Permanent Residents: Residents and Fellows

Fellows comprise about 5-6% of post-M.D. trainees in Canada. This figure has remained relatively constant over the past decade.

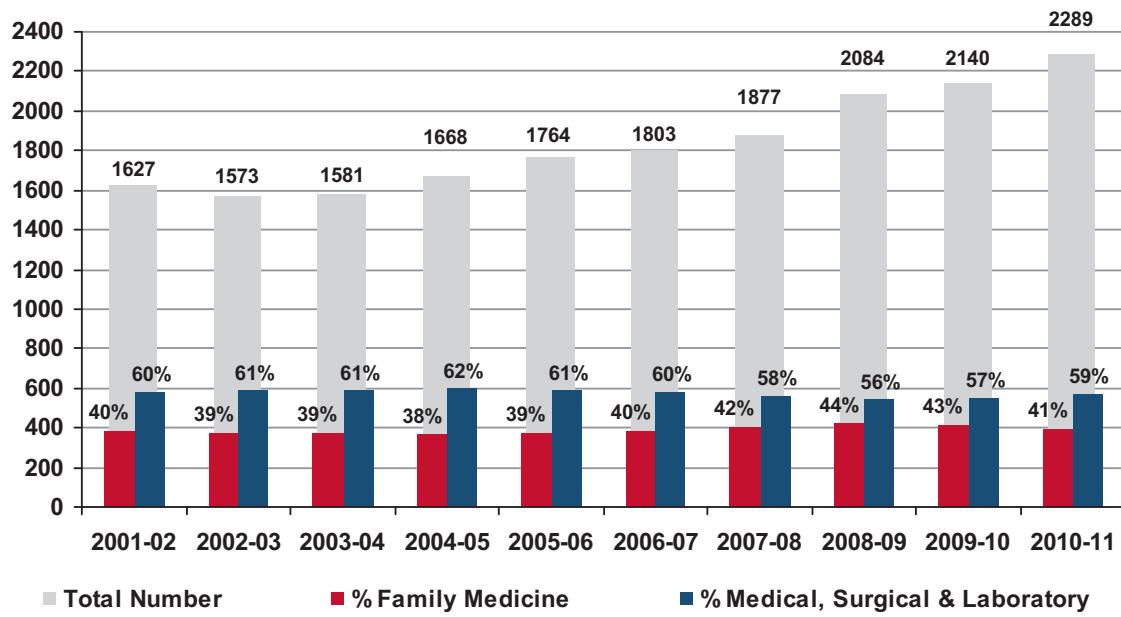

6. Canadian Citizens and Permanent Residents: Canadian M.D. Graduates Pursuing Post-M.D. Training Within and Outside Their Province of M.D. Graduation

■ Total Number ■ % Post-M.D. Training in M.D. Prov. ■ % Post-M.D. Training in Different Prov.

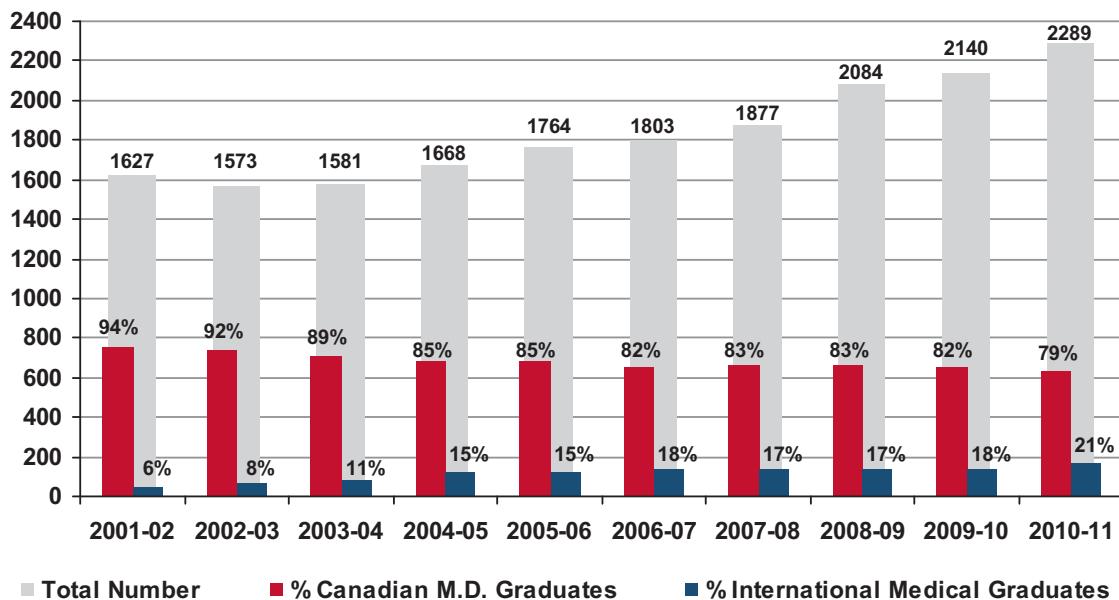

The proportion of Canadian graduates who do their post-M.D. training in the province where they earned their M.D. degree remained stable at 70% between 2001-02 and 2005-06. The proportion increased only slightly since then and is at 72% in 2010-11.

7. Canadian Citizens and Permanent Residents: Post-M.D. Trainees Exiting Family Medicine Vs. Medical, Surgical Laboratory Programs

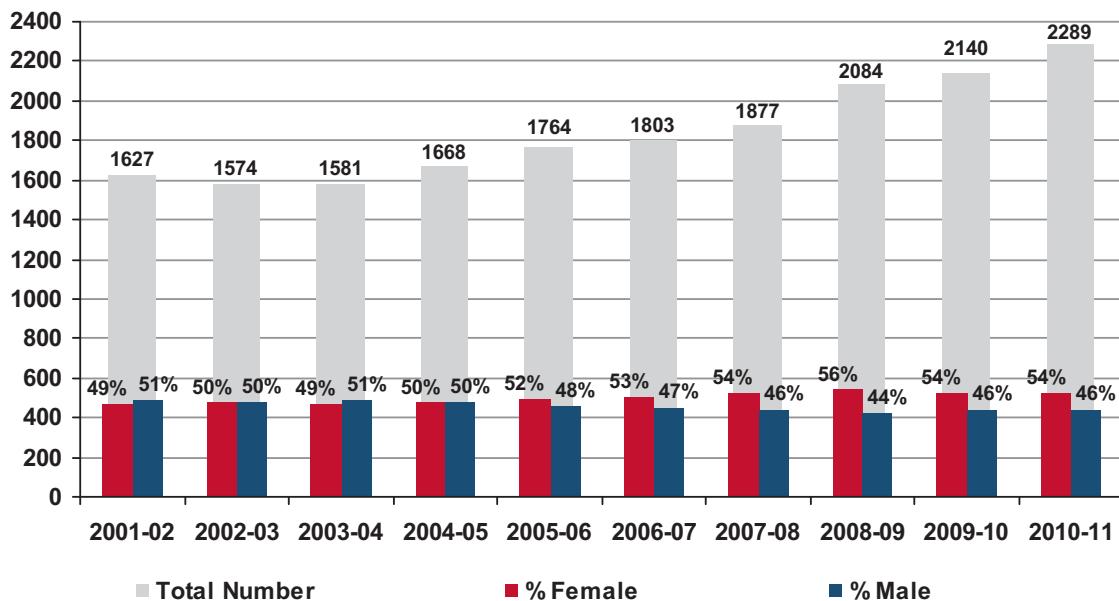

As the number of Canadian citizens/permanent residents entering post-M.D. training has increased, so too has the number of physicians exiting post-M.D. training. The number of physicians exiting post-M.D. training went from 1573 in 2002-03 to 2289 in 2010-11, a 46% increase.

8. Canadian Citizens and Permanent Residents: Exiting Post-M.D. Trainees by Canadian M.D. Graduate and International Medical Graduate Status

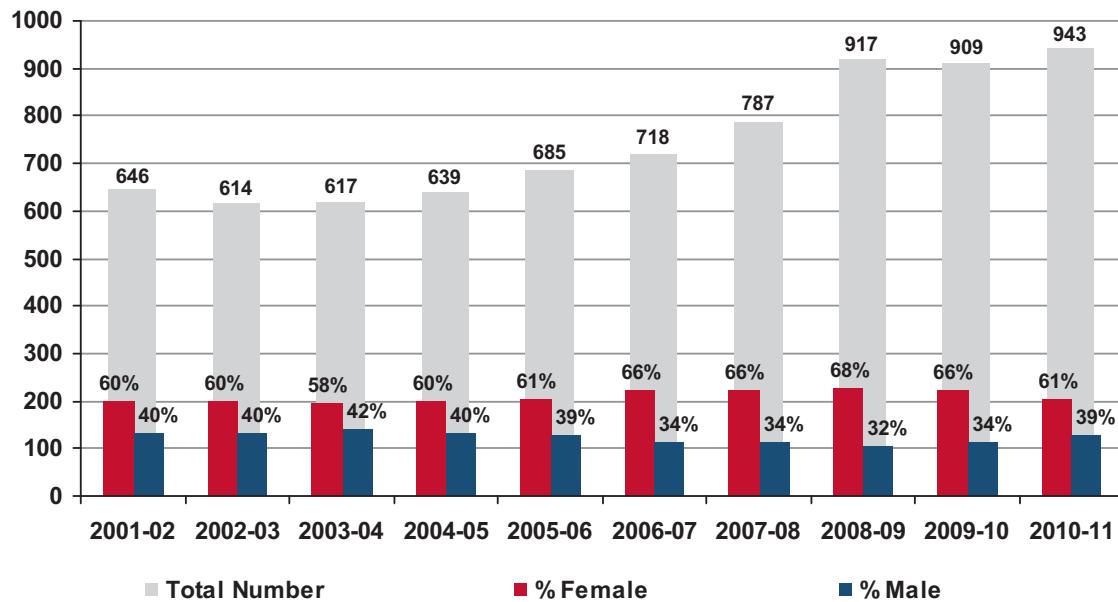

In 2010-11 international medical graduates reached a ten year high of 21% (n=475) of the practice entry cohort, which excludes Visa trainees. There were 1814 graduates of Canadian medical schools (79%) in the practice entry group.

9. Canadian Citizens and Permanent Residents: Exiting Post-M.D. Trainees by Sex

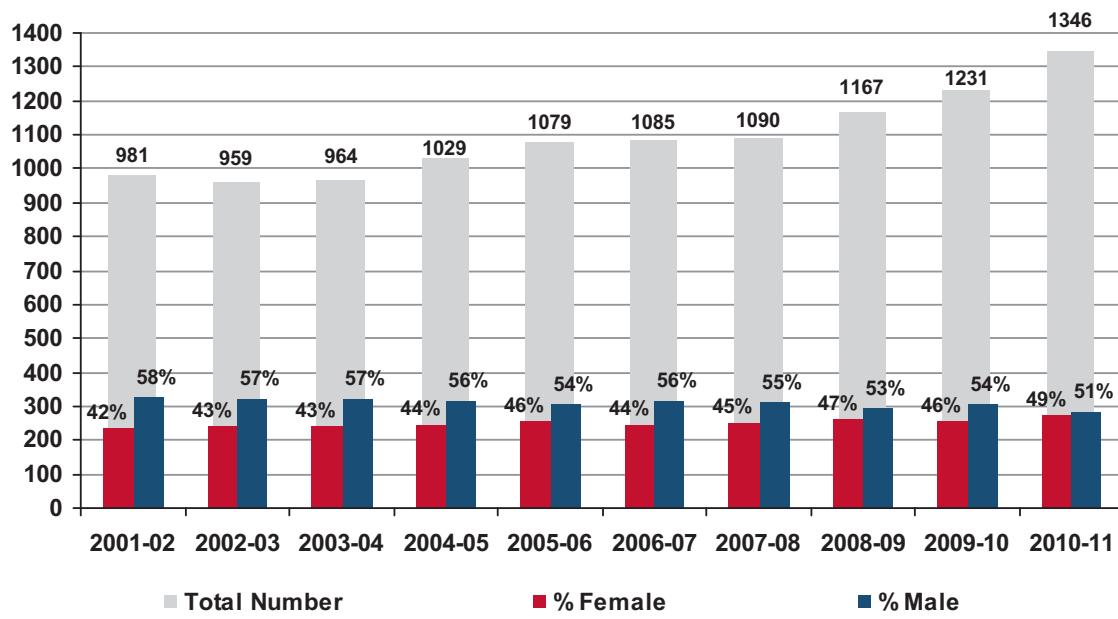

From 2003-04 to 2008-09, males comprised a decreasing proportion of trainees exiting post-M.D. training. The proportion of males increased slightly in 2009-10 and 2010-11 to 46%.

10. Canadian Citizens and Permanent Residents: Exiting Family Medicine Post-M.D. Trainees by Sex

From 2003-04 to 2008-09, females constituted an increasing proportion of family physicians completing post-M.D. training reaching 68% in 2008-09. The proportion of females has since dropped in 2010-11 to 61%.

11. Canadian Citizens and Permanent Residents: Exiting Medical, Surgical and Laboratory Post-M.D. Trainees by Sex

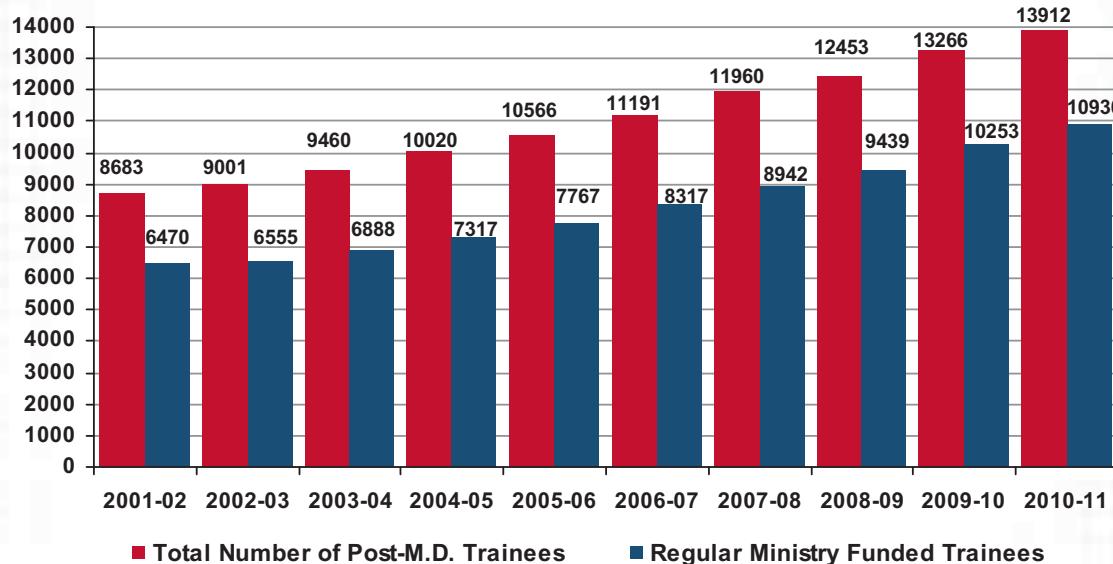

The number and proportion of female physicians completing medical, surgical or laboratory training programs increased from 547 (47%) in 2008-09 to 657 (49%) in 2010-11 and is at a ten year high. The proportion of males exiting medical, surgical or laboratory training programs remains slightly higher than females.

2. Quick Facts: Concerning Post-M.D. Trainees in Regular Ministry Funded Positions

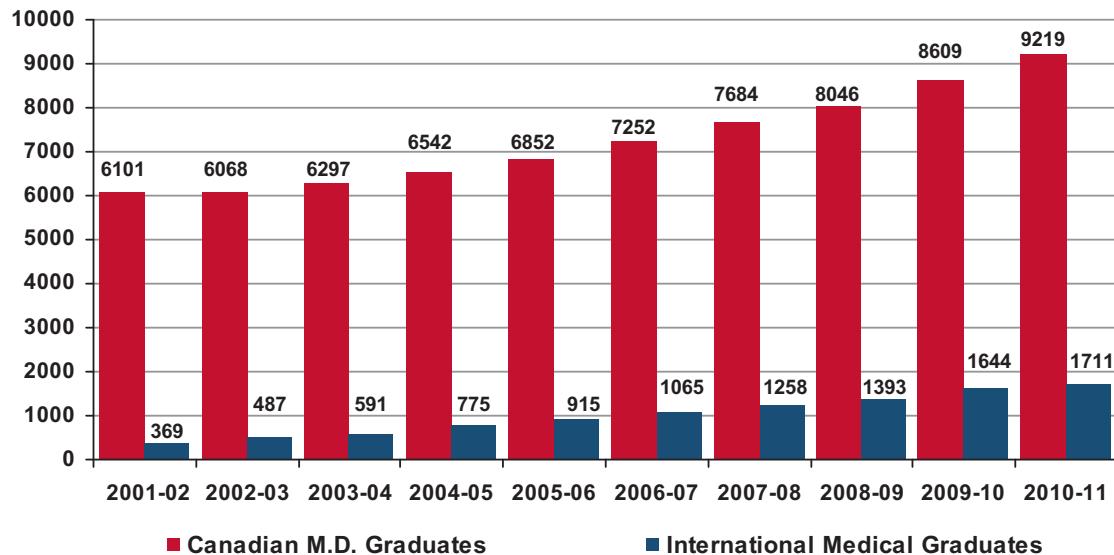

- A. The total number of regular ministry funded trainees continues to increase, reaching 10930 in 2010-11. The total number of post-M.D. trainees (ministry and non-ministry funded) also continues to increase, reaching 13912 in 2010-11. (Figure 1)
- B. Over the ten year period 2001-02 to 2010-11, the number of regular ministry funded Canadian medical graduates (CMGs) was lowest in 2002-03 (n=6068); By 2010-11 the number of ministry funded CMGs increased 52%, to 9219. During the same time period the number of regular ministry funded international medical graduates (IMGs) was lowest in 2001-02 (n=369). This figure is almost five times larger in 2010-11 (n=1711). (Figure 2)
- C. The number of current year CMGs in post-M.D. training increased sharply over the period 2002-03 to 2010-11. The steady increase from 1388 in 2002-03 to 2325 in 2010-11 represents a 68% increase. (Figure 3)
- D. Throughout the period 2001-02 to 2010-11, the number of physicians re-entering post-M.D. training is relatively low compared to new entry physicians. In 2010-11 the number of re-entry physicians was at its lowest (n=140) and the number of new entry physicians was at its highest (n=10790). (Figure 4)
- E. After two consecutive drops in 2005-06 and 2006-07, R-3 family medicine enrolment increased steadily to a high of 237 in 2010-11. The number of medical, surgical and laboratory trainees pursuing subspecialty training increased to a high of 369 in 2010-11. (Figures 5 and 6)

1. Total Post-M.D. Trainees and Regular Ministry Funded Post-M.D. Trainees

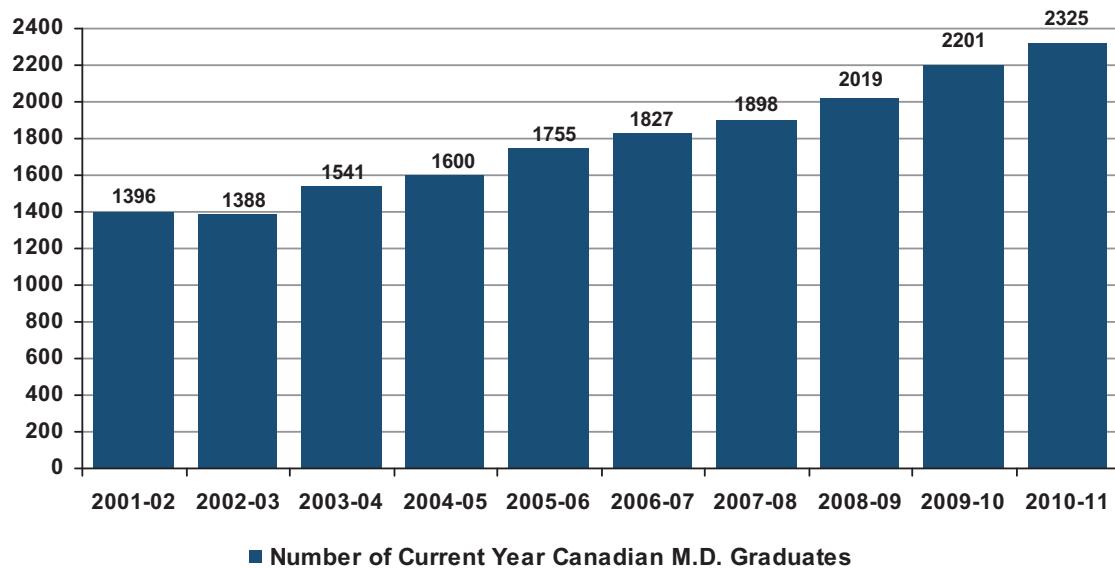

The total number of post-M.D. trainees increased to 13912 in 2010-11, a 5% increase over the 2009-10 figure. The ten-year low for both total enrolment and ministry funded enrolment occurred in 2001-02. In 2010-11, total enrolment is 60% higher than its ten year low and ministry funded enrolment is 69% higher than its ten year low.

2. Regular Ministry Funded Trainees: Canadian M.D. Graduates and International Medical Graduates

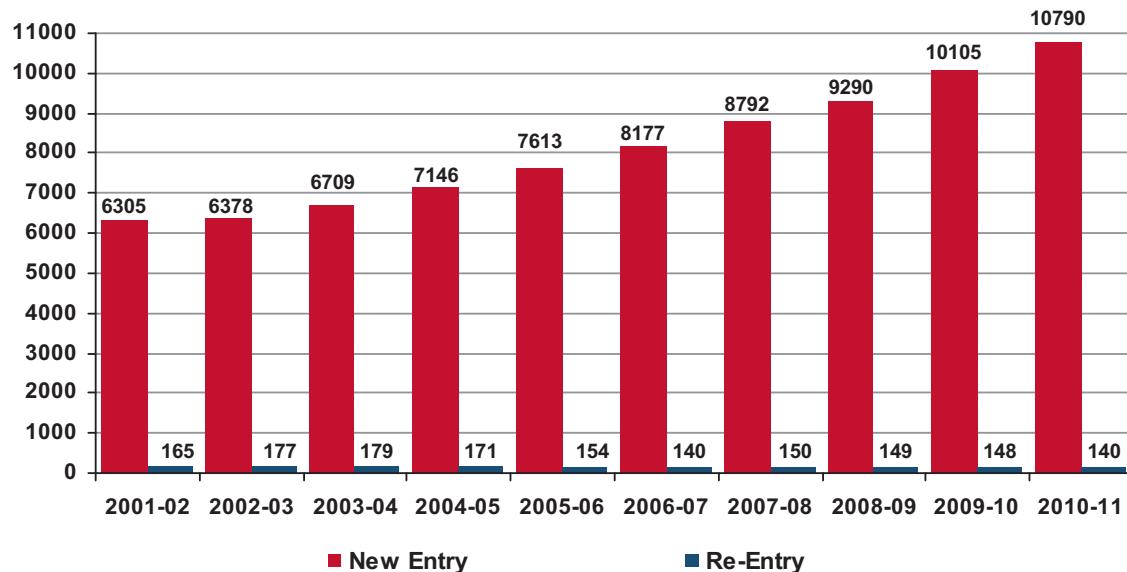

The number of ministry funded IMGs has increased to 1711 in 2010-11 and has increased steadily over the ten year period. The largest one-year increase occurred in 2009-10, when the number of ministry funded IMGs increased by 251 over the previous year's figure. The number of CMGs has increased steadily since 2002-03.

3. Regular Ministry Funded Trainees: Number of Current Year Graduates of Canadian Medical Schools in Post-M.D. Training

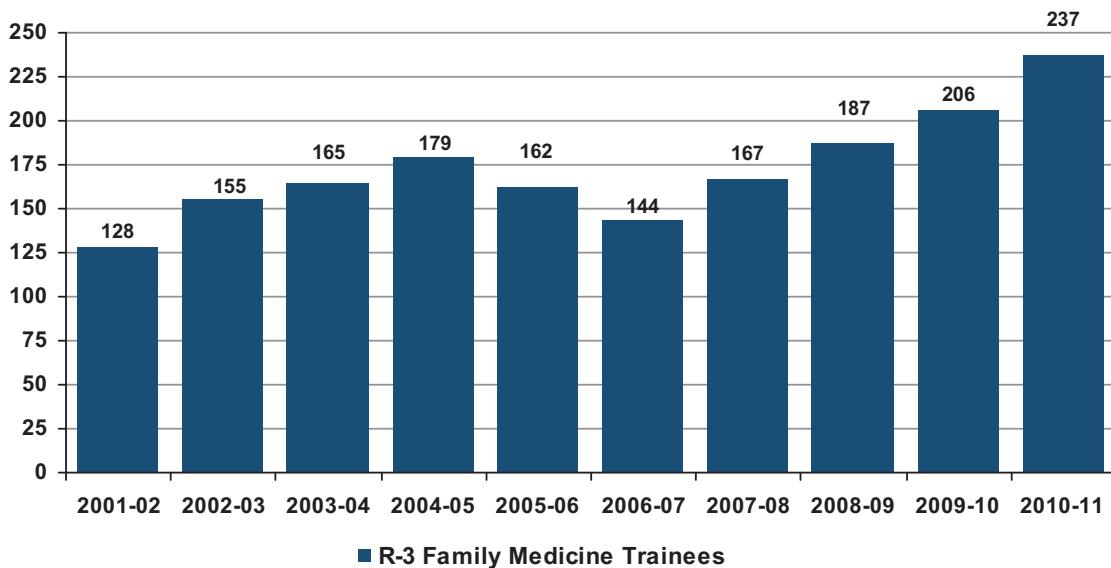

The number of current year Canadian M.D. graduates entering training in ministry funded positions increased to 2325 in 2010-11. This represents a 68% increase over 2002-03, when the number was at a ten year low.

4. Regular Ministry Funded Trainees: Number of New Entry and Re-entry Residents

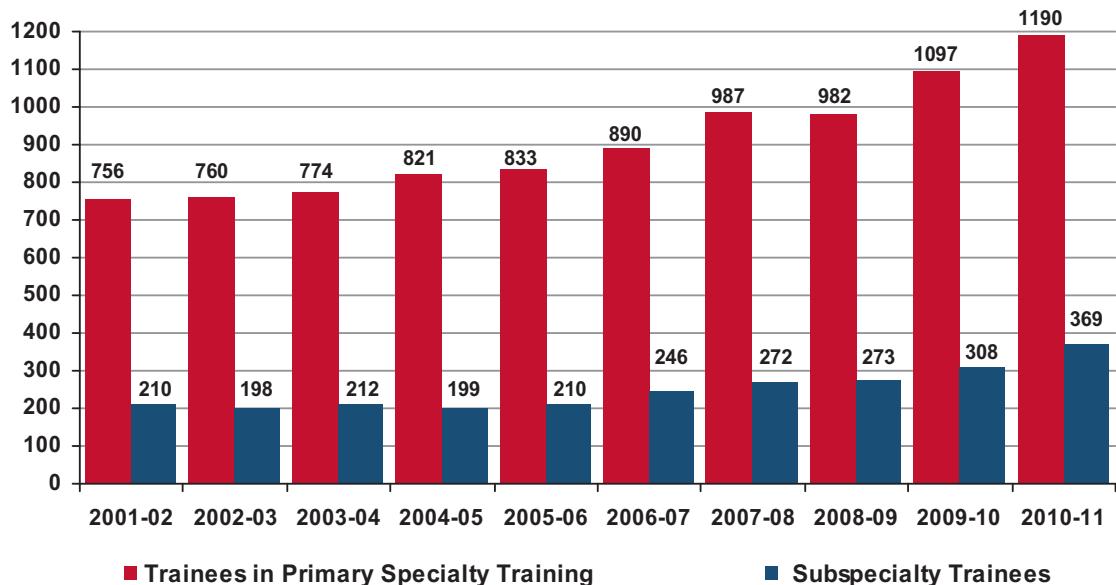

In 2001-02 the number of new entry physicians was at its lowest (n=6305). Since 2001-02, new entries have increased while re-entries have generally decreased with a low of 140 in 2010-11 and 2006-07.

5. Regular Ministry Funded Trainees: Number of R-3 Level Trainees in Family Medicine

After two consecutive drops in 2005-06 and 2006-07, R-3 family medicine enrolment increased steadily to a high of 237 in 2010-11. This represents a 15% increase over the number of R-3 family medicine trainees in the previous year, 2009-10.

6. Regular Ministry Funded Trainees: Number of R-4 Medical, Surgical and Laboratory Residents in Primary Specialties and Subspecialties

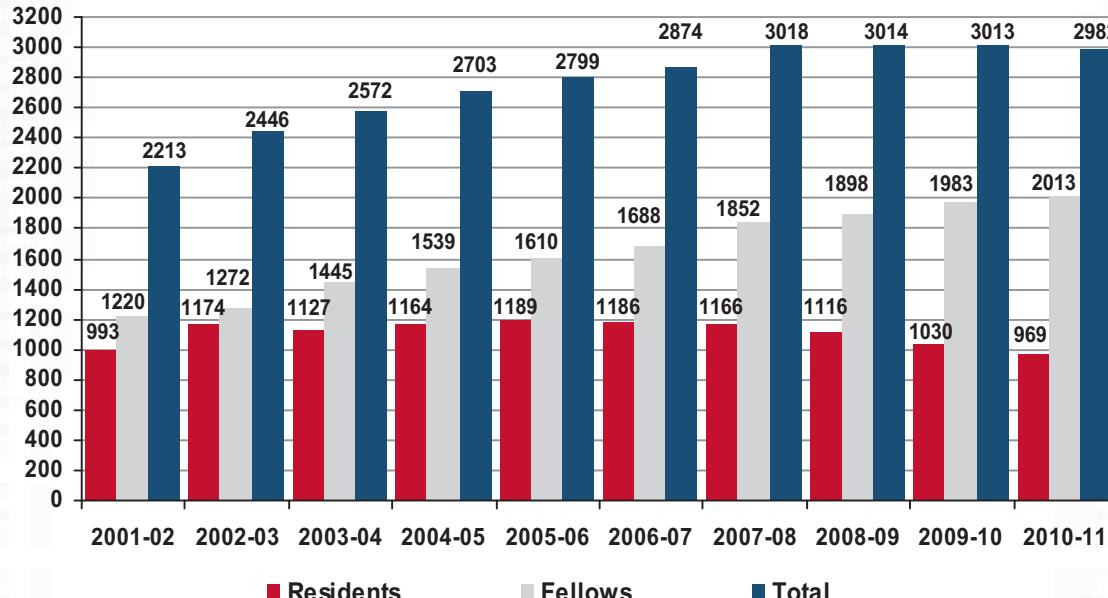

In 2010-11, 369 R-4 level medical, surgical and laboratory residents were in subspecialty training and 1190 were in the primary specialties. Since 2001-02, between 20%-24% of medical, surgical and laboratory trainees have been enrolled in subspecialty training. (By way of clarification, the primary specialty Internal Medicine has a number of subspecialties, such as Cardiology, Gastroenterology, Nephrology, etc.)

3. Quick Facts:

Quick Facts: Concerning Non-Ministry Funded Post-M.D. Trainees

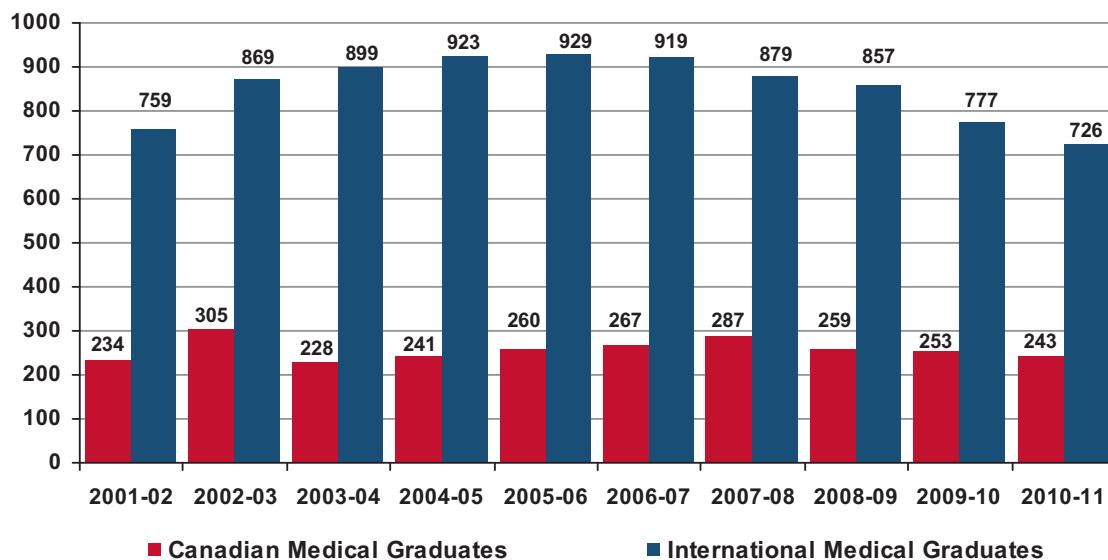

- A. From 2001-02 to 2007-08, there was a general increase in the number of non-ministry funded trainees, from 2213 in 2001-02 to 3018 in 2007-08. This number has remained fairly constant at about 3000 since 2007-08. (Figure 1)
- B. In each year between 2001-02 and 2010-11 most non-ministry funded post-M.D. trainees were international medical graduates (IMGs). In 2010-11, there were 726 non-ministry funded IMGs and 243 non-ministry funded Canadian medical graduates (CMGs). These figures do not include post-M.D. Fellows. (Figure 2)
- C. In 2010-11 there were 243 non-ministry funded CMG Residents and 380 non-ministry funded CMG Fellows. Fellows typically outnumber Residents among non-ministry funded CMGs. (Figure 3)
- D. The number of non-ministry funded CMG re-entry trainees has fluctuated little over the past ten years, from a high of 47 in 2002-03 and a low of 27 in 2009-10. (Figure 4)
- E. There has been an increase in the number of non-ministry funded post-M.D. Visa trainees over most of the past decade. Non-ministry funded Visa trainees increased from 1510 in 2001-02 to 2153 in 2008-09 with a small decrease to 2131 in 2009-10 and a further decrease to 2043 in 2010-11. (Figure 5)

1. Non-Ministry Funded Trainees : Residents Versus Fellows

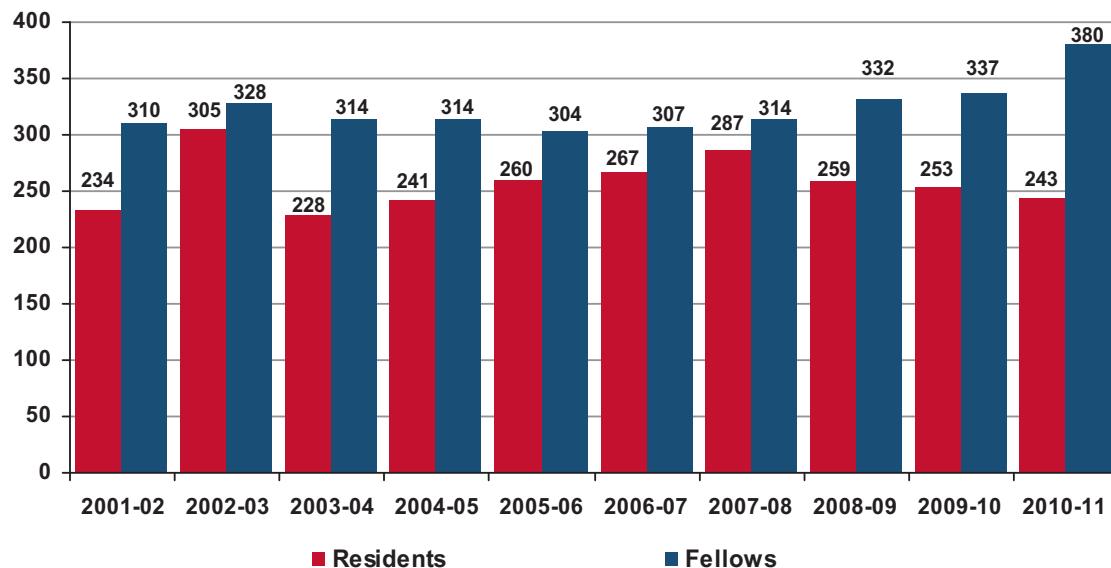

The number of non-ministry funded trainees increased from 2213 in 2001-02 to 2982 in 2010-11. This overall increase is attributable to an increase in the number of non-ministry funded post-M.D. Fellows .

**2. Non-Ministry Funded Trainees (Excluding Fellows):
Canadian Medical Graduates and International Medical Graduates**

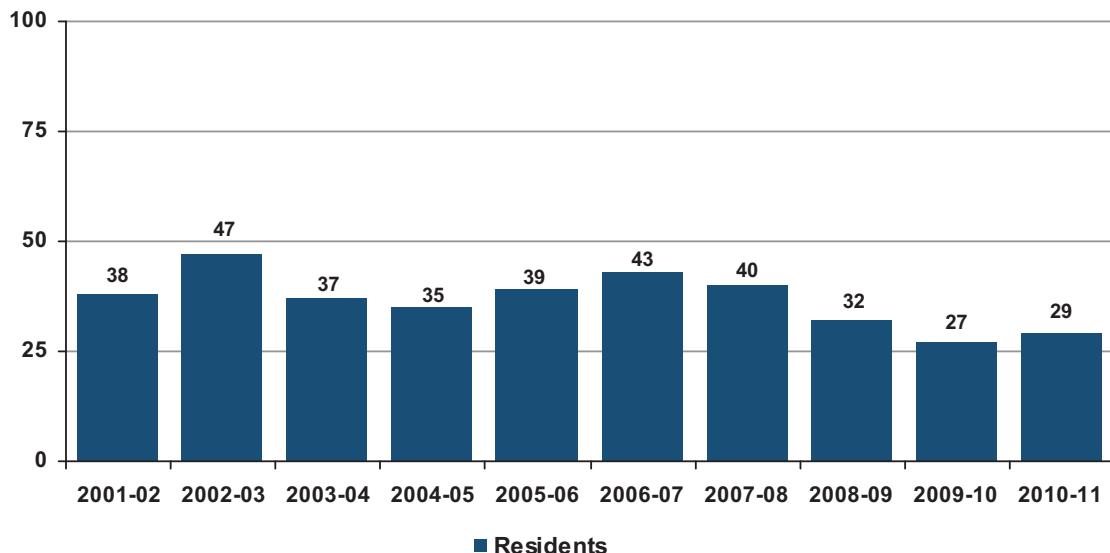

Between 2001-02 and 2010-11 there has been relatively little change in the number of non-ministry funded CMG Residents. These trainees numbered 234 in 2001-02 and 243 in 2010-11. While the number of non-ministry funded IMG Residents increased between 2001-02 and 2005-06, the numbers have decreased each year since then to a ten year low of 726 in 2010-11.

3. Non-Ministry Funded Trainees (CMGs Only – IMGs Excluded): Residents Versus Fellows

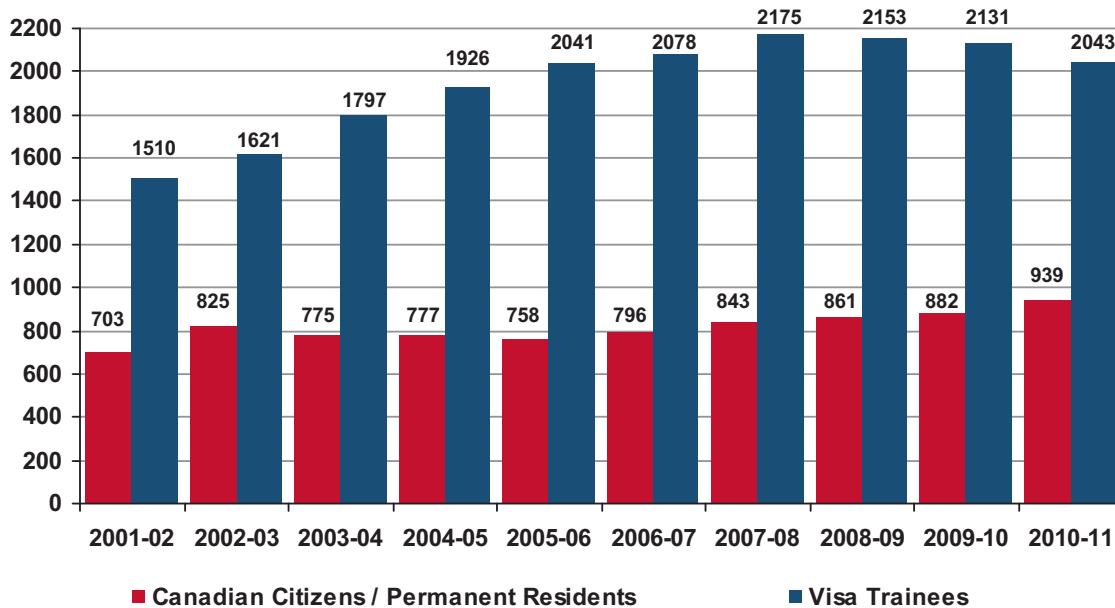

In 2010-11 there were 243 non-ministry funded CMG Residents and 380 non-ministry funded CMG Fellows. Fellows have outnumbered Residents among non-ministry funded CMGs in each year during the period 2001-02 to 2010-11.

**4. Non-Ministry Funded Trainees (CMGs Only – IMGs Excluded):
Number of Re-entry Residents**

The number of non-ministry funded CMG re-entry trainees has fluctuated little over the past ten years, from a high of 47 in 2002-03 to a low of 27 in 2009-10.

**5. Non-Ministry Funded Trainees:
Canadian Citizens/Permanent Residents Versus Visa Trainees**

There has been an increase in the number of non-ministry funded post-M.D. Visa trainees over most of the past decade. Non-ministry funded Visa trainees increased from 1510 in 2001-02 to 2175 in 2007-08. This is followed by a drop to 2043 in 2010-11. The number of non-ministry funded Canadian citizens/permanent residents fluctuated somewhat between 2001-02 and 2005-06. The number increased slightly in each consecutive year since 2005-06.

Data from the 2010–2011 CAPER Annual Census of Post-M.D. Trainees

Données provenant du recensement annuel des stagiaires post-M.D. 2010–2011

The following tables are grouped under topics of significance to post-M.D. training in Canada. The tables that have been selected give an overview of the distribution of the post-M.D. trainee population in Canada, among the provinces, faculties of medicine, and fields of training. These tables represent only a sample of the many ways variables can be combined to provide useful and interesting data.

See the section at the front of this report titled “**How to Access the CAPER Data Tables**” if you wish to request specific tables.

- A. Faculty of Medicine Providing Post-M.D. Training
- B. Field of Post-M.D. Training
- C. M.D. Degree
- D. Source of Funding for Post-M.D. Training
- E. Gender
- E.i. Age
- F. Legal Status
- G. First Year Trainees Only
- H. Estimated Practice Entry Cohort
- I. Tables Covering the Time Period from 2006-2007 to 2010-2011
- J. Supplementary Data

Les tableaux sont groupés selon les domaines d'intérêt à la formation post-M.D. au Canada. Les tableaux choisis donnent une vue d'ensemble de la distribution des stagiaires post-M.D. à travers le Canada, parmi les provinces, les facultés de médecine et les domaines de formation. Ces tableaux ne représentent qu'un échantillon des multiples façons d'utiliser les variables afin de fournir une information qui soit à la fois utile et intéressante.

Si vous désirez obtenir des tableaux spécifiques, reportez-vous à la section intitulée « **Utilisation de la banque de données de CAPER** » située au début de cet ouvrage.

(tableau H-9i)

Trainees Who Exited Post-M.D. Training Between November 1, 2009 AND November 1, 2010

(at a rank level consistent with completion of training)

Beginning with the “2000” exit cohort, physicians who left a training program prior to completing a sufficient number of years of training required for certification from any of Canada’s three certification organizations (the College of Family Physicians of Canada, le Collège des médecins du Québec and the Royal College of Physicians and Surgeons of Canada) were not included in the estimated practice entry cohort. The CAPER Policy Committee agreed to this change in the definition of the practice entry cohort because unrestricted licensure in each province and territory of Canada requires certification in either Family medicine or a specialty. Physicians who exit training prior to completion of their program would not have the qualifications for full licensure in Canada.

Other than this change in exit criteria, the exit groups will be presented in the same four groups as in previous CAPER publications.

I. Graduates of Canadian Faculties of Medicine

- a) Physicians who earned the M.D. degree in Canada who went directly through post-M.D. training and are entering practice for the first time (the new entry cohort).
- b) Physicians who earned the M.D. degree in Canada who have re-entered training after having already had a period of practice in Canada (the re-entry cohort).

II. Graduates of International Medical Schools

- a) International medical graduates who were Canadian citizens /permanent residents on July 1 of their last year of post-M.D. training (A small re-entry cohort has been isolated from this group). These physicians would have the legal status necessary to work in Canada.
- a) International medical graduates who held a temporary employment visa while in their last year of post-M.D. training. It is assumed that these physicians will not enter practice in Canada in view of their visa status and they are not included in the practice entry cohort.

I. Isolation of the New Entry and Re-Entry Groups of Graduates of Canadian Faculties of Medicine

Table H-1 compares the proportion of trainees in each field of training for the new entry (1814 trainees) and re-entry (82 trainees) group of graduates of Canadian faculties of medicine in the exit group.

In the new entry group, 724 (40%) of the cohort exited from family medicine programs, and 1090 (60%) exited from medical, surgical and laboratory programs: 748 (42%) from medical programs, 44 (2%) from lab medicine programs and 298 (16%) from surgical programs. (11 palliative medicine physicians are included in the medical/surgical/lab program total.)

Among the re-entry group ($n = 82$), 17 (21%) physicians were completing family medicine programs and most of them were in programs giving additional training beyond the 2-year family medicine program. The majority of re-entry residents (79%) were in medical, surgical or laboratory training programs.

II. Graduates of International Medical Schools

Table H-2 compares two groups of international medical school graduates – those exiting as Canadian citizens/permanent residents and those exiting as Visa trainees. Of the 492 Canadian citizens/permanent residents, 222 (45%) exited from family medicine training programs and 270(55%) exited from medical/surgical/laboratory training programs. Physicians who exit postgraduate training as Canadian citizens/permanent residents are considered to be eligible for practice in Canada.

Table H-3: Trainees Exiting Canadian Training Programs Between November 1, 2009 and November 1, 2010 (at a rank level consistent with completion of training).

Four main exit groups have been isolated and a small group of re-entry graduates of international medical schools has also been noted.

Estimated Practice Entry Cohort (Table I-7)

Table I-7 reports the number of new physicians expected to enter medical practice in Canada via Canadian post-M.D. training programs. These estimates include graduates of Canadian faculties of medicine as well as international medical graduates who are Canadian citizens/permanent residents. Thus, groups 1A and 2Ai from Table H-3 are combined to form the estimated practice entry cohort.

In 2010, there were 2289 new physicians in the estimated practice entry cohort. This figure includes 1814 graduates of Canadian faculties of medicine and 475 graduates of international medical schools (the 17 re-entry international graduates are not included in the practice entry cohort). The following tables, H-4 and H-5, were prepared using the estimated practice entry cohort. Only physicians exiting at a rank level consistent with completion of training were included.

Note: Canadian Citizens and Permanent Residents column contains 17 International Medical Graduates who were re-entry trainees. They had an absence of two years or more from post-M.D. training. The number of new entry International Medical Graduates is 475.

Table H-3
Summary Table
(at a rank level consistent with completion of training)

TRAINEES EXITING CANADIAN POST-M.D. TRAINING PROGRAMS
BETWEEN NOV. 1, 2009 AND NOV. 1, 2010

Exit Group	Description	No. of Trainees
IA	Graduates of Canadian faculties of medicine who proceeded directly through (includes physicians who had a one year absence) post-M.D. training (new entry group)	1814
IB	Graduates of Canadian faculties of medicine who had taken a break in training (re-entry group)	82
2Ai	International Medical Graduates who were Canadian citizens or permanent residents on July 1, 2009 who proceeded directly through (includes physicians who had a one year absence) post-M.D. training (new entry group)	475
2Aii	International Medical Graduates who were Canadian citizens or permanent residents on July 1, 2009 who had taken a break in training (re-entry group)	17
2B	International Medical Graduates who were visa trainees on July 1, 2009	922

* to be determined in a later year

¹ Students at Université Laval have the option to spread their MD program over five years instead of four years. The numbers who are five years from graduation include those students already enrolled in year 1 who have opted to prolong their program; those reported as being four years from graduation include those in year 1 who intend to complete the program in 4 years and those in year 2 who intend to take an additional year. The majority of students each year choose to extend their program of study over five years.

² Students listed as five years to graduation are enrolled in *année préparatoire* of the four year program at Université de Montréal.

NOTE: These data include 32 students (4 three years from graduation, 8 two years from graduation, 20 in the final year) enrolled in above-quota positions under contract between the faculty of medicine and a foreign government or institution.

* Preliminary data

¹ Permanent Resident includes refugees and refugee claimants.² For the first time in 1998, foreign students graduated from various Canadian universities, but were enrolled in above-quota, contract positions. The following numbers of graduates of Canadian universities were in above-quota, contract positions:

Year of MD	Number	Year of MD	Number	Year of MD	Number
1998	17	2003	32	2007	10
1999	11	2004	25	2008	5
2000	23	2005	29	2009	20
2001	31	2005	29	2010	20
2002	29	2006	22		

Table J-8

THE NUMBER OF TRAINEES SWITCHING BETWEEN MAJOR TRAINING FIELD CATEGORIES FOR EACH OF THE LAST 5 YEARS

1. Changes between Family Medicine and Specialty training fields

	A. Changes <i>From:</i> Family Medicine <i>To:</i> Any Specialty	B. Changes <i>From:</i> Any Specialty <i>To:</i> Family Medicine
2005-2006	35	39
2006-2007	37	34
2007-2008	31	51
2008-2009	27	42
2009-2010	22	53

2. Changes between Specialty fields

	A. Changes <i>From:</i> Medical Specialties <i>To:</i> Surgical Specialties	B. Changes <i>From:</i> Surgical Specialties <i>To:</i> Medical Specialties
2005-2006	17	34
2006-2007	14	25
2007-2008	11	19
2008-2009	8	24
2009-2010	8	27

3. Total: Changes among training field groups

Year	Total
2005-2006	125
2006-2007	110
2007-2008	112
2008-2009	101
2009-2010	110

Note: Movement of trainees between any training field and Palliative medicine are not counted as changes.

Although most program changes occur at the R-1 level, these tables include program changes at all training levels.
