2024 - 2025

ANNUAL CENSUS OF POST-M.D. TRAINING

Revised Edition - November 2025

CAPER would like to acknowledge its contributors and thank them for their continued support.

The Association of Faculties of Medicine of Canada
Resident Doctors of Canada
College of Family Physicians of Canada
Canadian Medical Association
Medical Council of Canada

Royal College of Physicians and Surgeons of Canada
Canadian Institute for Health Information
Canadian Resident Matching Service

Newfoundland and Labrador Department of Health and Community Services
Prince Edward Island Department of Health
Nova Scotia Department of Health
New Brunswick Department of Health
Ministry of Health

Manitoba Health, Healthy Living and Seniors
Saskatchewan Department of Health
Alberta Department of Health and Wellness
British Columbia Ministry of Health

Yukon Territory Department of Health and Social Services
Northwest Territories Department of Health and Social Services
Nunavut Department of Health and Social Sciences

Acknowledgements

Welcome to the CAPER Annual Census of Post-M.D. Trainees. The world of healthcare has changed substantially over the last few years. Nonetheless, our partner organizations and stakeholders have pulled together to support both the CAPER initiative and the publication of this important data source for Health Human Resource planning. The CAPER Annual Census report is Canada's definitive source of information on the numbers and types of physicians being trained to meet our societal needs.

The Annual Census report is made possible through a longstanding partnership between governments, faculties of medicine and professional medical organizations. Guidance and financial support are provided by the Association of Faculties of Medicine of Canada, Canadian Medical Association, College of Family Physicians of Canada, Medical Council of Canada, Resident Doctors of Canada, the Royal College of Physicians and Surgeons of Canada and federal/provincial/territorial governments. CAPER is sincerely grateful for the stewardship and financial support of its contributing members.

A sincere thank you is extended to CAPER data providers within the faculties of medicine. Associate Deans, Managers and other staff in Canada's postgraduate medical education offices submit and verify data files for use by CAPER. The Ontario Physician Human Resources Data Centre performs this work for all Ontario faculties of medicine. The time and effort given by data providers forms the cornerstone of the CAPER database.

A special thank you goes to CAPER Senior Data Analyst, Mr. Leslie Forward, for working to a very high standard preparing the Annual Census report and its supplementary reports. Further thanks are extended to all CAPER staff, for their work on quickly and accurately producing all the tables and figures in this report.

On behalf of CAPER, it is a pleasure working for our participating members and clients in managing this unique national resource.

Cindy Brassard,
Program Lead, CAPER

J-1i by faculty of M.D. degree and 2-year practice region – graduates of Canadian medical schools	142
J-2 by faculty of last post-M.D. training and 2-year practice region – Canadian citizens/permanent residents	143
J-2i by faculty of last post-M.D. training and 2-year practice region – graduates of Canadian medical schools	144
J-2ii by faculty of last post-M.D. training and 2-year practice region – GCMS who exited in the same province as M.D. degree	145
J-3 by faculty of last post-M.D. training and 2-year practice province/territory – Canadian citizens/permanent residents	146
J-3i by faculty of last post-M.D. training and 2-year practice province/territory – graduates of Canadian medical schools	148
J-4 by faculty of last post-M.D. training and 5-year practice province/territory – Canadian citizens/permanent residents	150
J-4i by faculty of last post-M.D. training and 5-year practice province/territory – graduates of Canadian medical schools	152
J-5 by faculty of last post-M.D. training and 10-year practice province/territory – Canadian citizens/permanent residents	154
J-5i by faculty of last post-M.D. training and 10-year practice province/territory – graduates of Canadian medical schools	156
K. Supplementary Data	158
K-1 Trainee switches by training field category	159

What's New in 2024-2025

This year's CAPER Annual Census introduces two new tables in Section J (Practice Locations) that expand our understanding of long-term physician practice patterns:

New Tables Added

Table Code	Title	Description
J-5	Faculty of last post-M.D. training and 10-year practice province/territory – Canadian citizens/permanent residents	Tracks the 10-year practice location of Canadian citizens and permanent residents by the faculty where they completed their last post-M.D. training.
J-5i	Faculty of last post-M.D. training and 10-year practice province/territory – graduates of Canadian medical schools	Focuses on graduates of Canadian medical schools, showing where they are practicing 10 years after completing their last post-M.D. training.

These additions provide a longer-term view of physician retention and mobility across provinces and territories, supporting more robust health human resource planning and policy development.

Background

The Canadian Post-M.D. Education Registry (CAPER) was established in 1986 through the co-operation of national medical organizations with an interest in the post-M.D. clinical education of physicians in Canada. The Association of Faculties of Medicine of Canada, Resident Doctors of Canada, the Canadian Medical Association, the College of Family Physicians of Canada, the Royal College of Physicians and Surgeons of Canada, the Medical Council of Canada, Health Canada, and the provincial and territorial ministries of Health have provided both expertise and financial support for the development and operation of CAPER.

CAPER is an initiative within the Association of Faculties of Medicine of Canada with the mandate to provide accurate information which may be used for physician resource planning on a national basis. To accomplish this task, a longitudinal file is maintained containing socio-demographic information and details of the current and past training programs of each resident or fellow under the supervision of the Canadian Faculties of Medicine on November 1 of each year as submitted by the office of Postgraduate Medical Education at each of the Canadian Faculties of Medicine.

CAPER Committee (2024-2025)

Chair

Dr. Heidi Britton

Resident Doctors of Canada

Members

Mr. Michael Campo, Provincial and Territorial Representative (Ministry of Health)

Ms. Susan Weston, Health Canada

Mr. Bilal Kobeissi, Canadian Medical Association

Mr. Steve Slade, College of Family Physicians of Canada

Dr. Glen Bandiera, Royal College of Physicians and Surgeons of Canada

Dr. Viren Naik, Medical Council of Canada

Vacant, Resident Doctors of Canada

Ms. Sunita Karmakar-Hore, Canadian Institute for Health Information

Mr. Justin Scanlon, Canadian Resident Matching Service

Ex-officio Member

Ms. Cindy Brassard

Program Lead, CAPER

Previous Chair of CAPER

1986 – 87	Dr. Robert H. Sheppard	2004 – 07	Dr. Jill Nation
1987 – 88	Dr. Jean-Pierre Desgroseilliers	2007 – 09	Dr. Kristin Sivertz
1988 – 95	Dr. George Goldsand	2009 – 14	Dr. Sal Spadafora
1995 – 97	Dr. Lucinda Whitman	2014 – 20	Dr. Mark Walton
1997 – 04	Dr. William Wrixon	2020 – 24	Dr. Alan Chaput

The Reporting Process

The individual records of all trainees under the supervision of each Canadian faculty of medicine are provided to CAPER by the postgraduate medical education office of the respective faculty. All post-M.D. trainees (residents and fellows) in training positions on November 1 of the current academic year are reported to CAPER. The following information is included in the yearly report.

- The faculty of medicine supervising post-M.D. training
- Socio-demographic information
- Previous medical education and certification; and
- Field of current post-M.D. training

This information is collected by all faculties at the time of registration for post-M.D. training each year and is sent to CAPER, in coded form. Information sent to CAPER is checked for missing or incorrect items. Reports are then sent back to the appropriate postgraduate medical education office of the Canadian faculties of medicine for further verification of the information of their trainees.

IMPORTANT DATA NOTE: Occasionally a small number of trainees come to the attention of CAPER that were missed during the data collection process. Therefore, there may be minor discrepancies across years. For the most recent data use the current census or contact us directly for a custom data request.

DATA PRIVACY

At the Canadian Post-M.D. Education Registry (CAPER), we take physician privacy very seriously. It is a long-established policy of CAPER and the Association of Faculties of Medicine of Canada (AFMC), of which CAPER is a component division, to deal with all physician information in a sensitive manner, in order to ensure that our collections, uses, disclosures, retention and disposal of physician information are carried out in accordance with best privacy practices.

The full CAPER Privacy Policy is on the website: caper.ca.

How to Access the CAPER Data Tables

All CAPER knowledge products are available on the CAPER website <https://caper.ca/>. In addition, the CAPER Annual Census of Post-M.D. Trainees the following knowledge products are also available on the CAPER website.

Individual CAPER Census Tables	https://caper.ca/postgraduate-medical-education/census-data-tables
CAPER Provincial and Faculty Reports	https://caper.ca/postgraduate-medical-education/provincial-and-faculty-reports
CAPER Individual Specialty Tables	https://caper.ca/postgraduate-medical-education/individual-specialty-reports

The CAPER database has been designed to serve as an information resource for physician workforce planning on a national and provincial or regional basis in Canada. Information is held in an individual longitudinal format to permit the study of the flow of trainees through the post-M.D. training system. Although information permitting the identification of individuals is not released from CAPER, group data tabulations and statistics will be prepared in response to requests.

Data requests made to CAPER are welcome. Request forms can be found at: [Using & Requesting Data | CAPER](#)

Definitions

The data provided to CAPER by all the Canadian Faculties of medicine contain the information on each trainee in accordance with the definitions below:

Faculty of Medicine Providing Post-M.D. Training

The faculty of medicine supervising the post-M.D. trainee on November 1 of the report year.

Field of Post-M.D. Training

The type of non-specialized training, family medicine training, or the specialty field in which a trainee is enrolled on November 1 of the report year. Several subspecialties have multiple entry points. For example, anaesthesiology, emergency medicine, internal medicine, pediatrics and general surgery all have critical care subspecialties. As individuals transition from primary to subspecialty training, CAPER counts them within the subspecialty field that is consistent with their prior training.

Clinician Investigator Program

This is a training program accredited by the Royal College for the purpose of providing additional research skills for physicians who are registered in one of the specialty or subspecialty training programs. Physicians reported in the A-5 table have already been included within their specialty training field in all other tables.

Rank

All new M.D. graduates now enter directly into either a family medicine or a specialty training program at the PGY-1 level.

Two years of training are required for certification in family medicine. The PGY-3 level training in family medicine is used for the accredited family medicine training programs such as care of the elderly and emergency medicine. To meet the training requirements of the Royal College a minimum of four to six years of training is required, depending on the specific specialty in which certification is sought.

A trainee progresses through the rank levels from PGY-1 to PGY-7 as appropriate for their specialty.

Fellows

CAPER uses the following definition of the term “fellow”: a post-M.D. trainee who is registered with the Postgraduate Medical Education Office of a university faculty of medicine and who, regardless of the source of funding, is pursuing clinical or research training which will NOT be evaluated by the supervising faculty for the purpose of Canadian licensure, or certification by the College of Family Physicians of Canada, the Collège des médecins du Québec or the Royal College of Physicians and Surgeons of Canada. (Trainees with appropriate prerequisite training registered in Royal College “accreditation without certification” programs are considered as residents, not fellows.)

Location of M.D. Degree

A trainee is classified as either a graduate of a Canadian medical school or as an international medical graduate if they completed their M.D. degree outside Canada (this includes U.S.A.).

Source of Funding

The source of funding is the organization or government agency providing the funding for the position occupied by the trainee. Two main categories are used: “Regular Ministry Funds” and “Other Funds”. “Regular Ministry Funds” refers to funds provided by the appropriate provincial government ministry responsible for the training of residents within that province. All other funding sources are grouped as “Other Funds” which includes such sources as ministry funds provided for complementary training by the Quebec Ministry of Health and Social Services, funds for residency training transferred from one province to another and government-funded foundations such as the Alberta Heritage Foundation. It also includes funding from federal government, foreign countries, clinical training sites, etc.

Age

Age is calculated as the age of the trainee on July 1 of the report year.

Legal Status

Two categories are used:

Canadian Citizen / Permanent Resident

Trainee is a citizen of Canada or has been accepted as a landed immigrant and has the right to live and work in Canada.

Visa

Trainee holds a visa permitting employment in Canada temporarily as a post-M.D. trainee.

First Year Trainees

Only first-time trainees in their first year of post-M.D. training in Canada at the PGY-1 level are designated as “first year trainees” and are included in Section G of the book. Other trainees at the PGY-1 level who are re-entering training, repeating the first year, or changing specialties requiring a second year at the PGY-1 level are NOT included in Section G on first year trainees.

Trainees included in the first year trainee category according to CAPER are:

1. Graduates of Canadian medical schools at the PGY-1 training level who have not been previously reported to CAPER.
2. International medical graduates who are entering training at the PGY-1 level in Canada for the first time (visa trainees beginning a program at the PGY-1 level are, therefore, included in this group).

Exiting Trainees

Postgraduate trainees exiting programs are categorized within the CAPER report in the following ways:

1. Trainees who have completed their training at a level consistent with certification by CFPC, Royal College or Collège des médecins du Québec and have not completed a training program in Canada before. This group is meant to represent physicians who will enter practice in Canada for the first time and is called the **estimated practice entry cohort**. This cohort contains graduates of Canadian medical

schools and international medical graduates who are Canadian citizens or permanent residents.

2. Trainees who have exited training before reaching a level consistent with certification.
3. International medical graduate trainees who held a temporary employment visa while in their last year of post-M.D. training. It is assumed most of these physicians will not enter practice in Canada.
4. Trainees who have re-entered training at some point and are exiting again.

Sex

Visa trainees have not been included in the data pertaining to sex. This was done to give a more realistic picture of the sex mix of the cohorts of physicians who will be entering practice in Canada. The tables which have been affected are A-3, G-6 and I-3.

Completion of Training

This term is used in Section J to indicate that the group exited training at a level appropriate for completion of training (e.g. PGY-2 or higher for Family medicine, PGY-4 or higher for most Royal College specialties and PGY-5 or higher for subspecialties and surgical specialties).

Palliative Medicine

Palliative medicine is a unique specialty in that it is accredited jointly by the Royal College of Physicians and Surgeons of Canada and by the College of Family Physicians of Canada.

For the tables based on the November 2018 census, palliative medicine will appear in both the Family Medicine and Medical Specialties sections.

For the tables in Section I which are based on earlier years, FM palliative medicine is included within “Enhanced Skills”. If required, breakdowns of these enhanced skills can be provided through a special request.

* This table contains what is believed to be re-entry graduates of Canadian Medical Schools and re-entry International Medical Graduates who were Canadian citizens/permanent residents.

It is assumed all were previously in practice in Canada and therefore not new additions to the Canadian physician workforce.

Section K: Supplementary Data

K-1	Trainee switches by training field category	159
------------	---	-----

Table K-1
SUPPLEMENTARY TABLES
Trainee switches by training field category

1. Changes between Family Medicine and Specialty training fields

	<u>A.</u> Changes <i>From:</i> Family Medicine <i>To:</i> Any Specialty	<u>B.</u> Changes <i>From:</i> Any Specialty <i>To:</i> Family Medicine
2019-2020	39	36
2020-2021	51	45
2021-2022	40	37
2022-2023	38	33
2023-2024	38	35

2. Changes between Specialty fields

	<u>A.</u> Changes <i>From:</i> Medical Specialties <i>To:</i> Surgical Specialties	<u>B.</u> Changes <i>From:</i> Surgical Specialties <i>To:</i> Medical Specialties
2019-2020	9	13
2020-2021	8	17
2021-2022	10	14
2022-2023	11	14
2023-2024	15	12

3. Total: Changes among training field groups

Year	Total
2019-2020	97
2020-2021	121
2021-2022	101
2022-2023	96
2023-2024	100

Note: Movement of trainees between any training field and Palliative medicine are not counted as changes. Although most program changes occur at the PGY-1 level, these tables include program changes at all training levels.
