

Trainees Exiting Post-M.D. Training in 2019

The number of Canadian Medical Graduates (CMGs) who exited training at a rank consistent with completion of training is summarized across the last five years below. The majority of these trainees will enter the Canadian medical workforce.

CMGs Exiting Training at a Rank Consistent with Completion of Training

For all CMGs exiting a Canadian medical faculty the map below shows how many Family Medicine trainees exited training in 2019 per 100,000 of the provincial population. They were assigned to a particular province based on the location of the primary campus of the faculty they were enrolled at.
