Individual Field of Training Tables

About These Tables

A set of four tables have been prepared showing the faculty of medicine providing training for each family medicine and specialty field in Canada. The rank level of residents enrolled in each program at each faculty on Nov 1, 2007 is given.

Four tables are given for each training field.

- 1-A: All Canadian Citizens and Permanent Residents – This group of residents is our best estimate of the physicians who will become new family physicians and specialists for Canada.
- 1-B: Visa Trainees – These physicians although undertaking post-M.D. training in Canada, do not have the legal status required to stay and practice medicine in Canada.
- 2-A: Regular Ministry Funded – The funds for training for this group of trainees have been provided by the appropriate provincial government ministry responsible for the training of residents within each province.
- 2-B: Non-Ministry Funded – The funds for training this group of trainees comes from any source other than regular provincial ministry funds. The main source of funds comes from contracts between the faculty of medicine and foreign governments.
- 3: Summary Table 1998 – 2007 – Number of Regular Ministry Funded Trainees in all Training Fields.
